

# NEW RELIGIONS IN GLOBAL PERSPECTIVE

PETER CLARKE

# New Religions In Global Perspective Global

**Eugene V. Gallagher, Lydia Willsky-  
Ciollo**

## **New Religions In Global Perspective Global:**

**New Religions in Global Perspective** Peter Bernard Clarke,2006 This volume provides a complete guide to the global impact and cultural significance of new religious movements

**Japanese New Religions** Peter Bernard Clarke,1999 Since the 1960s the world has seen the arrival and establishment of new Japanese religious movements this text examines the nature and extent this religious expansion outside Japan

**Bibliography of Japanese New Religions, with Annotations and an Introduction to Japanese New Religions at Home and Abroad** Peter Bernard Clarke,1999 Containing some

1500 entries this new bibliography will be widely welcomed for its comprehensive brief and for the sub section profiling principal NRMs covering history beliefs and practices main publications braches worldwide and membership

**The Bloomsbury Handbook of Religious Ecstasy** Alison Marshall,Rubina Ramji,Michael Wilkinson,2025-03-20 Why do people seek a connection to something beyond the social dimensions of the world Ecstatic experiences are often labelled religious

spiritual mystical or even sacred However ecstasy is not just extraordinary for many people throughout the world it is an ordinary part of daily life The Handbook highlights the diverse individuals who have experienced ecstasy in the past and

present from ordinary people to mystics pastors healers spirit mediums and urban neo therapeutic shamans Chapters show that ecstasy may be experienced during trance possession prayer and even through the use of drugs such as soma peyote

ayahuasca ibogaine mushrooms LSD and other substances While institutional expressions of religion may be on the decline experiences of religious ecstasy and interactions among living people and gods saints angels and demons individually and

collectively are happening everywhere occurring at home online in the community and through prayer dance song possession and the ingestion of drugs Ecstatic religious experience as this handbook shows provides meaning belonging and for some

profit in the late capitalist marketplace

**New Religions [2 Volumes]** Eugene V. Gallagher,Lydia Willsky-Ciollo,2021-02-15 A valuable resource for students and general audiences this book provides a unique global perspective on the history beliefs

and practices of emergent faith communities new religious traditions and religious movements worldwide from the 19th century to the present New Religions Emerging Faiths and Religious Cultures in the Modern World provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries Readers will

gain access to the information necessary to explore the significance complexities and challenges that modern religious traditions have faced throughout their history and that continue to impact society today The work identifies the themes and

issues that have often brought new religions into conflict with the larger societies of which they are a part Coverage includes new religious groups that emerged in America such as the Seventh day Adventists the Latter day Saints and the Jehovah s

Witnesses alternative communities around the globe that emerged from the major Western and Eastern traditions such as Aum Shinrikyo and Al Qaeda and marginalized groups that came to a sudden end such as the Peoples Temple Heaven s Gate and the Branch Davidians The entries highlight thematic and broader issues that run across the individual religious traditions

and will also help students analyze and assess the common difficulties faced by emergent religious communities. Presents alphabetically arranged entries on new religions that provide readers with easy to access historical information about how these religions emerged from their cultural contexts and evolved over time. Provides numerous primary source documents each introduced by a headnote that convey firsthand accounts of the founding of new religions and supply students material for critical analysis. Includes photographs that help students better visualize important places, people and things related to new religions. Helps meet world history content standards and enables a fuller understanding of religious beliefs and practices in the contemporary world as well as how religions have responded to challenges and uncertainties.

**New Religious Movements** Elijah Siegler, 2007. Using a historical and cultural approach, New Religious Movements takes the approach that new religious movements are neither new nor inherently evil or dangerous. The Introduction colorfully demonstrates the variety of NRMs today and how our first impressions of them may be wrong. Also this text argues that NRMs are a normal response to cultural and social change, not just something that has happened to the Western World since the 1960s. This book's topics include Defining New Religious Movements, Modern Heresy, Esoteric Revival, Asian NRMs, African NRMs, Islamic NRMs and the Global Future of NRMs. An interesting read for those interested in New Religious Movements.

*New Religions and Globalization* Armin W. Geertz, Margit Warburg, Dorthe Refslund Christensen, 2008. Globalization is a predominant theme in contemporary educational and political circles. Research on globalization has become a political priority because the world has become a single place where local events may have worldwide political, economic and military consequences. Oftentimes, however, cultural and religious consequences are ignored, although recent waves of violence seem to be religiously fuelled.

**IHJ Bulletin**, 2004. **Introduction to New and Alternative Religions in America** Eugene V. Gallagher, William M. Ashcraft, 2006-10-30. Most new or alternative religious are gravely misunderstood by members of the religious mainstream. Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty, tension and fear. Here experts delineate the boundaries and examine the various groups' beliefs.

movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more *Introduction to New and Alternative Religions in America: Asian traditions* Eugene V. Gallagher,W. Michael Ashcraft,2006 *Religions of the World* J. Gordon Melton,Martin Baumann,2002 Contains entries that examine the beliefs and practices of the world s religions at the beginning of the twenty first century including core essays that provide basic data about major religious traditions and descriptions of the religious situations in the countries of the world arranged alphabetically S to Z **The World's Religions** Peter B. Clarke,Peter Beyer,2009-05-07 This comprehensive volume focuses on the world s religions and the changes they have undergone as they become more global and diverse in form It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent **The Future of Religion** Paul Rennick,Stanley B. Cunningham,Ralph Henry Johnson,2010 Religion evokes strong emotions and raises hard questions This volume addresses many of the contentious elements that religion provokes and challenges some of the easy answers contemporary society has produced The frequent and often facile dictum about the separation of church and state when examined closely may prove to contribute to the erosion of some of our most cherished human values rather than to their preservation The science versus religion dichotomy is dogma for many yet the empiricism that is the hallmark of

scientific method and knowledge can be singularly absent from positions that claim to be science. The current spate of attacks against God and religion that are now commonplace when critically scrutinized often fail to provide compelling arguments or even to be as objective as their authors claim. These and other explorations are the focus of this book. From the Forward in which Charles Kimball challenges the West to re-evaluate its perspective and understanding of the East, particularly Islam, to the Afterword in which theologian Gregory Baum chronicles the extraordinary reversal of sociology TM's estimation of religion, the invitation from this volume to all of us is to review our pieties and presuppositions as we reflect on the future of religion.

*The Journal of Japanese Studies*, 2003    *The Virginia Review of Asian Studies*, 2003    **Religious Diversity in Singapore** Institute of Policy Studies (Singapore), Institute of Southeast Asian Studies, 2008 Religious and ethno-religious issues are inherent in many multi-ethnic and multi-religious societies. Singapore society is no exception. It has long been multi-ethnic, multicultural and multi-religious, being at the crossroads of many major and minor civilizations, cultures and traditions, and its religious diversity continues to develop in the current contexts of growing religiosity, religious change and conflict, often in the name of religion. Despite this background, there is a lack of in-depth knowledge, nuanced understanding and regular dialogue about religions and the meanings of living in a multi-religious world. This volume, covering major themes of Singapore's religious landscape, religion in schools and among the young, religion in the media, religious involvement in social services and interfaith issues and interaction, fills important gaps in the knowledge and understanding of Singapore's religious diversity and complexity. A collective effort of researchers and practitioners, it is a timely and useful reference for scholars, decision makers, leaders and practitioners, as well as for concerned citizens and followers.

*The Routledge Handbook on Radicalisation and Countering Radicalisation* Joel Busher, Leena Malkki, Sarah Marsden, 2023-11-28 This handbook provides a theoretical and methodological exploration of the research on radicalisation and counter-radicalisation, one of the most influential concepts in Security Studies, International Relations and Peace and Conflict Studies. Sitting at the heart of high-profile research and policy agendas on preventing and countering violent extremism (P-CVE), radicalisation as a concept has transformed the way researchers, policymakers and societies think about how to counter terrorism and political violence. Deliberations about radicalisation and countering radicalisation have become further embedded as efforts to prevent and counter violent extremism have been mainstreamed into other areas of public policy and practice, such as education, gender relations, health, peacebuilding, aid and development. Theoretically and methodologically pluralistic, this handbook addresses radicalisation and countering radicalisation as they relate to a wide range of groups and milieus, articulating diverse ideological positions, drawing together insight and experience from multiple geographic and institutional settings, integrating global perspectives and including scholarship focused on a range of policy fields. This book will be an essential reference point for anybody working on radicalisation, countering radicalisation or terrorism and political violence more broadly. The insight that it provides will be relevant for both academics and members of relevant policy and practitioner

communities *Japanese Journal of Religious Studies*, 2008 Zen, Reiki, Karate Inken Prohl, 2002 **Antiquity and Social Reform** Dawn L. Hutchinson, 2010 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm. The question motivating many studies of new religious movements has been why would someone join these religions? In *Antiquity and Social Reform* Dawn Hutchinson offers at least one answer to this often repeated query. She argues that followers of new religious movements in the 1960s and 1980s, specifically the Unification Church, Feminist Wicca and the Nation of Yahweh, considered these religions to be legitimate because they offered members a personal religious experience, a connection to an ancient tradition and agency in improving their world. Utilizing an historical approach, *Antiquity and Social Reform* considers the conversion narratives of adherents and primary literature of the formative years of these movements, which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions propelled members into social action.

Fuel your quest for knowledge with **Authored by** is thought-provoking masterpiece, Dive into the World of **New Religions In Global Perspective Global**.
