actions Vickery describes the historical setting and specific events leading up to Las Casas's spiritual awakening and then interprets this experience in light of his message for us today. Students of history, Western civilization, and social justice will find here an original and provocative text about Colonial Latin America and Native American studies while students of ethics will find much food for thought in its treatment of questions of conscience and the moral choices with which we are confronted.

Jackson, 2019-02-01 From the sixteenth to the early nineteenth centuries, the Spanish Crown sponsored missions staffed by members of different Catholic missionary orders to evangelize the indigenous populations and engage in social engineering in line with royal policy. The missionaries directed the construction of building complexes that included churches, leaving behind an important historical and architectural legacy. This visual catalog documents the surviving complexes on selected missions on the frontiers of Spanish America in what today is Mexico and parts of South America. It also presents basic historical data on the mission communities, including demographic data and documents damage to early mission buildings by the earthquakes of September 7 and September 19, 2018.
