New Midwifery Reflections On Renaissance And Regulation:

Reconceiving Midwifery Cecilia Benoit, Ivy Lynn Bourgeault, Robbie Davis-Floyd, 2004 Midwifery in the developed world is in a state of ferment and change a phenomenon referred to as the new midwifery Reconceiving Midwifery offers state of the art analyses of the new midwifery as it is practiced The authors social scientists and midwifery practitioners reflect on regional differences in the emerging profession providing a systematic account of its historical local and international roots its evolving regulatory status and the degree to which it has been integrated into health care systems They also examine the nature of midwifery training accessibility and effectiveness across diverse ethnic and socio economic groups highlighting the key issues facing the profession before during and in the immediate post integration era in each province *Birth By Design* Raymond De Vries, Cecilia Benoit, Edwin van Teijlingen, Sirpa Wrede, 2002-05-03 This collection of essays contains leading research in maternity care from Europe the United States and Canada to discuss systems of care for pregnancy and childbirth Birth By Design focuses on the practical side of good social science research This is a ground breaking work that looks not only at maternity but also the act of childbirth **Journal of the Association for Research on Mothering**, 2005

Midwifery and the Medicalization of Childbirth Edwin Van Teijlingen, 2000 This book provides an introduction to the sociological study of midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalisation of childbirth It highlights the major themes in both a historical and a current context as well as western and non western societies Two major themes underlie the organisation of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalisation of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalisation of childbirth and midwifery is meant the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one "Until Our Hearts are on the Ground" Jeannette Corbiere Lavell, Dawn Memee Lavell-Harvard, 2006 In this revolutionary volume as part of their overall effort to advocate for the rights of Aboriginal women D Memee Lavell Harvard and Jeannette Corbiere Lavell have brought together a multitude of voices to speak on the issues facing Aboriginal mothers in contemporary society Beginning with an examination of the experience of childbirth the initiation into motherhood the contributing authors illustrate its potential as a source of empowerment and revitalization for our nations Through their own unique perspectives the women bring us to an understanding of the variety of Aboriginal mothering practices the impacts of colonization and government legislation on Aboriginal mothers and literary representations of Aboriginal mothering Together these women have worked to reveal not only the connection between the longstanding historical oppression experienced by Aboriginal women and the dire contemporary circumstances of many Aboriginal communities but also the power of Aboriginal mothers

to revitalize and transform our communities They are truly the givers of new life **At Work in the Field of Birth** Margaret MacDonald,2007 At Work in the Field of Birth is an ethnographic study of midwifery in Canada in the wake of its historic transition from the margins as a grassroots social movement devoted to low tech woman centered care to a regulated profession within the public health care system In January 1994 after decades of lobbying by midwives and their supporters the province of Ontario recognized midwifery as a profession for the first time in more than a century Through stories about becoming and being a midwife and stories about receiving midwifery care this book describes how fundamental tenets of midwifery philosophy and practice the meaning of tradition natural birth and home birth and the place of medical technology in midwifery are being reworked by the practical and ideological challenges of midwifery s new place within the formal health care system MacDonald presents contemporary midwifery as a complex cultural system in which nature and tradition emerge as dynamic rather than essentialized social categories of meaning and experience Feminist Bookstore News ,1997 **New Books on Women and Feminism** ,1997 Atlantis ,1999 **Women, Work, and Social Rights** Cecilia Benoit,2000 The text is suitable for upper level sociology courses of work and gender as well as political science and women s studies courses Viewing gender relations in a historical context the book examines the importance of women s roles in both paid and unpaid work with a particular focus on the Canadian experience and its relation to other societies **Cahiers de la Femme** ,2004 **The Canadian Writer's Market** Jem Bates,1998 Now completely revised and updated for this thirteenth edition The Canadian Writer s Market is the authority on who publishes what and how best to bring attention to your work Success in getting your manuscript published depends on knowing where you are most likely to sell your work who to approach and how and where to find professional and financial assistance In the ever changing and increasingly competitive world of Canadian publishing this is not as easy as it might sound The indispensable tool for keeping up is The Canadian Writer s Market acclaimed coast to coast for more than 25 years as the most important reference book for writers next to a dictionary and thesaurus In addition The Canadian Writer s Market includes listings for literary agents awards competitions and grants and offers practical advice on all aspects of manuscript preparation and marketing It also contains useful background information on the thorny issues of income tax for the freelancer and copyright and libel law *Canadian Books in Print* ,2003 Feminist Periodicals ,2006 **Canadian Periodical Index** ,2000 **Compulsory Hospitalization** ,1979 *RCM Midwives* ,2006 **The Bookseller** ,1914 **Index-catalogue of the Library of the Surgeon-general's Office, United States Army** National Library of Medicine (U.S.),1907 **Women's Healthcare in the Medieval West** Monica Helen Green,2000 In this collection of seven major essays one of them published here for the first time Monica Green argues that a history of women s healthcare in medieval western Europe has not yet been written because it cannot yet be written the vast majority of texts relating to women s healthcare have never been edited or studied Using the insights of women s history and gender studies Green shows how historians need to peel off the layers of

unfounded assumption and stereotype that have characterized the little work that has been done on medieval women's healthcare. Seen in their original contexts, medieval gynecological texts raise questions of women's activity as healthcare providers and recipients as well as questions of how the sexual division of labor, literacy and professionalization functioned in the production and use of medical knowledge on the female body. An appendix lists all known medieval gynecological texts in Latin and the western European vernacular languages.
