## New Millennium Writings Ibue 1:

**Literature and Identity in Italian Baroque Travel Writing** Nathalie Hester, 2016-12-05 This first full length study in English on seventeenth century Italian travel writing enriches our understanding of an unusually fertile period for Italian contributions to the genre. The intrinsic qualities of this literature can now be grasped in terms of the larger question of cultural identity in Italy. For Hester the specifically literary characteristics of Italian travel writing including its humanism or Petrarchism highlight the classic eminence throughout Europe of a prestigious tradition inherent to Italy one compensating then for the peninsula's lack of a national political identity. Appeals to the cultural authority of that tradition represent a means of addressing and overcoming anxieties about the Italian subject's diasporic status during the Golden Age of European global colonial expansion. Self funded travelers Francesco Carletti Pietro Della Valle Francesco Belli Francesco Negri and Giovanni Francesco Gemelli Careri are the major authors studied who journeyed through Europe the Middle East Asia and America.

### **Latin American Documentary Film in the New Millennium** María Guadalupe Arenillas, Michael J.

Lazzara, 2016-06-23 Nearly two decades into the new millennium Latin American documentary film is experiencing renewed vibrancy and visibility on the global stage. While elements of the combative politicized cinema of the 1960s and 1970s remain the region's production has become increasingly subjective reflexive and experimental though perhaps no less political. At the same time Latin American filmmakers both respond to and shape global tendencies in the genre. This book highlights the richness and heterogeneity of Latin American documentary film surveys a broad range of national contexts styles and practices and expands current debates on the genre. Thematic sections address the subjective turn of the 1990s and 2000s and the move beyond it the ethics of the encounter between the filmmaker and the subject object of his or her gaze and the performance of truth and memory a particularly urgent topic as Latin American countries have transitioned from dictatorship to democracy.

### **The Noughties in the Hispanic and Lusophone World** Niamh Thornton, Kathy Bacon, 2013-02-22

While the fin de siècle has received considerable attention as a critical concept the first decade of a new century has been less well studied. The chapters in this volume consider the distinctive cultural significance of the noughties in the Hispanic and Lusophone world looking at the specific cultural political and economic circumstances of the decade and in some cases proposing notions of an identifiable noughties sensibility or noughties generation which may flow out of or stand in reaction against the malaise of the fin de siècle. Drawing on specialist area specific knowledge the authors consider the significance of the noughties across different eras. The contributions include chapters on how Brazil is negotiating the complicated terrain of digital literacy the painful re examination of the civil war that is taking place in Spain and the negative effects of the economy on women's lives in Argentina. The chapters examine film digital media theatre fiction the economy and history all taking the noughties as a focal point. The multiple perspectives will reveal the commonalities of experiences that a particular period brings about as well as showing up the distinctive local differences.
