## New Rubia:

Chinese Drugs of Plant Origin Weici Tang, Gerhard Eisenbrand, 2013-06-29 Traditional Chinese medicine has been used for thousands of years by a large population. It is currently still serving many of the health needs of the Chinese people and still enjoying their confidence. It is practised in China in parallel with modern Western medical treatment. In addition to scientific organisations dedicated to modern Western medicine e.g. the Chinese Academy of Medical Sciences and various medical schools, a series of parallel institutions have been established in China to promote traditional Chinese medicine such as the Academy of Traditional Chinese Medicine and training institutions. Almost all hospitals in China have a department of traditional medicine. Furthermore, a large number of scientific journals are dedicated to traditional Chinese medicine covering both experimental and clinical investigations. Medicinal materials constitute a key topic in the treatment of disease according to traditional Chinese medicine. The Chinese Pharmacopoeia 1985 edition is therefore divided into two separate volumes. Volume I containing traditional Chinese medicinal materials and preparations and Volume II containing pharmacopeia of Western medicine. The oldest Chinese review of medicinal materials, *Shennong Bencao Jing* 100 200 A.D. covered 365 herbal drugs. The classic compilation in this field, *Bencao Gangmu* Compendium of Materia Medica was published in 1578 by Li Shizhen and recorded as many as 1898 crude drugs of plant, animal and mineral origin.

**Medicinal Plants and Mushrooms of Yunnan Province of China** Clara Bik-San Lau, Chun-lin Long, 2021-06-16 Although many texts describe plants from China, the focus of this book is to draw on the rich culture and environment of medicinal plants and fungi mushrooms of Yunnan Province. In fact, Yunnan Province covers two global hotspots of biodiversity with the richest biological and cultural diversity in China. In particular, the Kunming Institute of Botany (KIB) of the Chinese Academy of Sciences founded in 1938 and located in the capital city of Yunnan Province has made great contributions in the fields of botany and phytochemistry, earning an international reputation. This book covers those medicinal plants and fungi mushrooms specific to Yunnan Province and is written mainly by KIB experts in this research field. Key Features: Distinct sections cover the breadth of the topic including resource availability, wild-grown or cultivated, sustainability and distribution. Discusses plant parts used for medicinal uses, the folklore, the ancient and modern uses. Describes the important natural products and the known pharmacologically active components. Presents biological activities related to medicinal uses or clinical evidence. Cover image: Shilin, the stone forest, eroded vertical pinnacles of limestone, landmark of Kunming, Yunnan.
