## New Talmudic Readings:

*New Talmudic Readings* Emmanuel Lévinas, 1999 This volume contains three of Emmanuel Levinas's last major lectures on the Talmud. Originally compiled and published in French in 1996, it includes the lectures *The Will of Heaven* and *the Power of Humanity*, *Beyond the State*, and *in the Self* and *Who is One*. Levinas's Talmudic commentaries have generated interest in both theological and philosophical circles. These exegetical writings bear on his ever-present concern with ethics, the central focus of his philosophy. One of the most remarkable consequences of this focus furthermore is a renewal of philosophy's capacity to both respect and uncover the deepest meanings central to sacred as well as secular texts.

*Nine Talmudic Readings* Emmanuel Levinas, 2019-05-16 These nine masterful readings of the Talmud by the renowned French Jewish philosopher translate Jewish thought into the language of modern times. One of the major continental philosophers of the twentieth century, Emmanuel Levinas was also an important Talmudic commentator. Between 1963 and 1975, he delivered an enlightening and influential series of commentaries at the annual Talmudic colloquia of a group of French Jewish intellectuals in Paris. In this collection, Levinas applies a hermeneutic that simultaneously allows the classic Jewish texts to shed light on contemporary problems and lets modern problems illuminate the texts. Besides being quintessential illustrations of the art of reading, the essays express the deeply ethical vision of the human condition that makes Levinas one of the most important thinkers of our time.

*Beyond the Verse* Emmanuel Levinas, 1994-01-01 Available in paperback for the first time, this is an important collection of essays dealing with problems in Jewish thought.

### **Reading Between the Lines**

Elizabeth Goldvin, 2015 Reading Continental Philosophy and the History of Thought Christian Lotz, Antonio Calcagno, 2023-11-03 This book frames the mission of the Continental Philosophy and History of Thought series at Lexington Books International. Leading scholars contribute essays that explore and redefine the relationship between received arguments in contemporary Continental philosophy and various influential figures and arguments in the history of thought. By bringing Continental philosophy and the histories of thought into dialogue, editors Christian Lotz and Antonio Calcagno broaden the standard canon of what is considered Continental philosophy by including important yet understudied figures and arguments in the tradition. The chapters also deepen and contextualize significant movements and debate in the field by showing their rich historical underpinnings, thereby establishing new viewpoints in specific constituent subfields of philosophy. *Reading Continental Philosophy and the History of Thought* shows the growing richness of Continental philosophy via unexplored rethinking of the history of thought. The contributors expand Continental philosophy with and through the recovery of important historical developments, figures, and lines of thought.

### **Reading Between the Lines**

Elisabeth Goldwyn, 2015 Originally published in Hebrew, this book examines Levinas's contributions to Jewish thought, concentrating specifically on his talmudic readings in the context of contemporary midrash.
