New Directions in Regional Economic Development Sameeksha Desai, Peter Nijkamp, Roger R. Stough, 2011 The introduction of endogenous growth theory has led to new interest in the role of the entrepreneur as an agent driving technical change at the local regional level This book examines theoretical and methodological issues surrounding the interface of the entrepreneur in regional growth dynamics on the one hand and on the other presents illuminating case studies In total the book's contributions amplify understanding of such critical issues as the relationship between innovation and entrepreneurship the entrepreneur's role in transforming knowledge into something economically useful and knowledge commercialization with both conceptual and empirical contributions The emergence of endogenous growth theory has unleashed a flurry of new hypotheses and related inquiries that have in turn created an exciting dynamic in the conceptual theoretical and empirical foundations of the field A central feature has been the recognition that local initiatives matter in how regions grow and adjust to changes and shocks Moreover it is the role of technical change driven by entrepreneurs that motivates these initiatives This volume begins by outlining and explaining the theory and method behind entrepreneurship and development This is followed by specific case studies of practice and policy These cases are region specific offering the reader concrete empirically based research results Scholars and students in economics entrepreneurship and public policy will find this volume a valuable tool in understanding the latest research in regional economic development

Entrepreneurship, Sustainable Growth and Performance Hans Landström, Hans Crijns, Eddy Laveren, David Smallbone, 2008-01-01 Collectively the authors present an informative overview of some of the best European research in entrepreneurship that exists at present In addition the variation in research traditions and approaches offer the reader an interesting insight into the various disciplinary perspectives that can shed light on entrepreneurial activities including insights from psychology sociology finance and strategy The attempt to examine both individual and firm level analysis is also a strength of this book given that the majority of entrepreneurship research tends to focus on just one of these streams and there is a dearth of work that is able to integrate and understand both dimensions simultaneously the book provides value for money for those whom entrepreneurship research within a European context is a particular interest Jean Clarke International Journal of Entrepreneurial Behaviour and Research This book brings together some of Europe's finest scholars showcasing the richness diversity and quality of European entrepreneurship research Collectively the authors present an authoritative overview of state of the art research on current entrepreneurship themes
