They deal with many different theories collected via different research methodologies. This new edition features 23 new articles ranging from noncriminal deviance to crimes in cyberspace. The text has been applauded by readers. One user writes: The articles have been extremely well selected. They cover classical and current issues in deviance. Many are on the cutting edge, the coverage of theories of deviance is outstanding because while the selections are relatively short they convey the essence of each of the perspectives.

ADHD 2.0 Edward M. Hallowell, John J. Ratey, 2021. World renowned authors present a revolutionary new idea: What if people viewed impulsivity, distractibility, and hyperactivity as personality traits instead of symptoms? Furthermore, what if those traits could be valued and harnessed for the creativity and entrepreneurial spirit they tend to breed?

American Journal of Speech-language Pathology, 1991

MIndful Education for ADHD Students Victoria Proulx-Schirduan, C. Branton Shearer, Karen I. Case, 2009. This inspiring book reveals the invisible inner landscapes of how educators teach children from a variety of backgrounds to meet the challenging expectations of today's standards without sacrificing support for their developmental needs or their diverse ways of learning. Featuring images of possibility from an urban school, it describes effective child-centered teaching in pre K through fifth grade. Each image is analyzed for the educational decisions that took place to make the experience effective, including the planning involved in the classroom environment and routines that supported it, how standards were addressed, how the teacher assessed student learning to shape instruction, and the impact on students. This practical resource is a must-read for pre and in-service teachers and anyone committed to helping inner city children succeed in school and beyond.
