Estate Option gives you control of a piece of real estate without actually purchasing it. By having an option on a piece of property you have the exclusive right to buy that property or not. A real estate option is simply a contract between the seller and buyer giving you the legal right not obligation to buy the property at a set price for a predetermined time. When you find a buyer for the property you cash in your option and deposit a large check. Most real estate investment methods require you to sink a lot of your money time and effort into your investments. And it is a slow process usually one property at a time often part time. Using an option instead of purchasing means you do not have to deal with rental property tenants maintenance and repairs taxes mortgage payments commissions or closing costs. In this new book you will learn how to control a vast real estate portfolio without ever buying the property. Let the owner keep paying the mortgage dealing with tenants and all of the costs. You zero in on the profits. Here is an example you locate a duplex worth 400 000 you purchase an option to buy it for 340 000 anytime within the next 120 days. On Day 60 you find a buyer who will pay the full 400 000 you activate the option pay the seller 340 000 and pocket 60 000. This is a simplified example but this new book details how to become a highly successful real estate option buyer and it demonstrates step by step how to get started in this highly rewarding investment strategy.
