archives During this transition from the current post digital phase to the next phase independent publishers and artists as well as readers and machines will enable new structures and actions that realize the potential of publishing and the preservation of content thereby enriching social practices The author also considers the crucial social role played by new forms of libraries as artists and publishers shape the coming publishing world in its various manifestations Combining analytical accounts of tactical strategies with examples from artworks and experimental practices the book concludes with a manifesto for publishing in the twenty first century and an appendix with a selection of one hundred publications representing the periodic table of future publishing
