

A 3D model of a coastal landscape. The foreground shows a sandy beach with a few small green plants. Behind the beach is a rocky shore with a path leading up to a forested hillside. The hillside is covered in green trees and has a winding path leading to the top. The sky is blue with a few white clouds. The model is set against a white background.

The image shows the front cover of a children's book titled "Changing Coasts". The title is at the top in large, green, bubbly letters. Below the title is a small illustration of a beach with a blue umbrella and a beach chair. The main illustration features a large, white, circular play button in the center. The play button has a blue triangle pointing to the right. Behind the play button is a coastal scene with a blue sky, white clouds, a green grassy hill, and a brown, textured rock formation. The water in the foreground is dark blue with white waves. A small white bird is flying in the lower left area of the water.

A screenshot of a mobile game titled "How Coastlines Change". The title is at the top left, and a cartoon character is at the top right. Below the title is a green button with a white play arrow. The main area is a 3x3 grid of images. The first column shows a large blue wave crashing onto a beach. The second column shows a coastal area with a sign that reads "Wave erosion coastal". The third column shows a coastal area with a sign that reads "Wind wave coastal". The fourth column shows a coastal area with a sign that reads "Wind wave coastal". The fifth column shows a coastal area with a sign that reads "Wind wave coastal". The sixth column shows a coastal area with a sign that reads "Wind wave coastal".

Our Changing Coastlines

Michael J. Allen, Julie Gardiner

Our Changing Coastlines:

Our Changing Coastlines Francis Parker Shepard, Harold Rollin Wanless, 1971 **Our Changing Coast** Michael J. Allen, Julie Gardiner, 2000 The Langstone Harbour Archaeological Survey Project was founded to undertake a detailed investigation of a large shallow marine inlet on the southern coast of England. This volume outlines the results of work carried out between 1993 and 1998 when a broad range of interdisciplinary investigative techniques were employed: fieldwalking, GPS survey, auger survey, limited excavations, underwater geophysical survey and excavation. A history of the physical development of the harbour as well as the populations that lived in the vicinity and exploited its resources is given from the earliest evidence in the Mesolithic and Neolithic to the Bronze Age Urnfield cemetery, salt production in the Roman period through to more recent changes and ecological and environmental threats to the survival of this area. [Ephemeral Coast: Visualizing Coastal Climate Change](#) Celina Jeffery, 2022-08-02 Ephemeral Coast Visualizing Coastal Climate Change considers the ways that art can offer a means through which to discover, analyze, re-imagine and re-frame emotive discourses about the ecological and cultural transformations of the coastline. This edited anthology takes ephemerality as its central conceptual and methodological framework and presents a series of essays that create interconnections between environmental and social considerations of the coast, a succession of embodied creative practices and shifting regional geographic identities. The book presents a series of specific case studies of artistic practices and strategies that seek to capture the rewriting of cartographic maps that are being reshaped by rising seas, coastal flooding and catastrophic weather. The essays in this edited volume engender creative strategies for understanding new and uncertain coastal ecologies and the loss, expulsion or destruction of their associated cultures, habitats, species and ecosystems. The anthology also looks at the historical mnemonic and contemporary transitional conditions of conflicted coastal spaces in which empire, modernity and globalization press on coastal erosion and incursions, proliferate it with trivial plastics pollution and disposable attitudes and bring vulnerable communities into uncertain futures. **Miscellaneous Paper - U.S. Army, Corps of Engineers, Coastal Engineering Research Center** Coastal Engineering Research Center (U.S.), 1973 **Miscellaneous Paper** Coastal Engineering Research Center (U.S.), 1973 **An Annotated Bibliography of Aerial Remote Sensing in Coastal Engineering** Donald B.
