The novel presents Victor Frankenstein as a modern Prometheus whose pursuit of knowledge leads to tragic consequences. Through intertextual references, especially to classical mythology, Enlightenment philosophy, and literature like Paradise Lost, Shelley critiques the

dangers of unchecked scientific progress and the moral failures of a creator who abandons his creation The analysis emphasizes the dual role of education for Victor it becomes a source of hubris and isolation for the creature education fosters empathy self awareness and a tragic longing for acceptance Similarly family is shown as a source of moral grounding Victor benefits from a loving but emotionally distant family while the creature suffers due to total social and emotional abandonment Shelley s narrative structure and interwoven myths highlight the importance of responsibility emotional education and belonging The paper concludes that Frankenstein is a cautionary tale about ethical responsibility in science and society Through her layered use of myth and Romantic ideals Mary Shelley illustrates how both education and family can either nurture or destroy depending on how they are embraced or denied **The Word and Beyond** Dick Higgins,1982
