Unlike her parents he listens to her and counsels her. Dead Fred trusts Ppeekk too. In fact he has a big favor to ask. Can she help him save High Voltage from the evil Megalodon. Ppeekk and her friends use everything they've got to lure the evil beast to his demise exploding coconut bombs strangler fig lassos even themselves as human bait to vanquish Megalodon and his rogue army. The Database and Expert Systems Applications DEXA conferences are dedicated to providing an international forum for the presentation of applications in the database and expert systems field for the exchange of ideas and experiences and for defining requirements for the future systems in these fields. After the very promising DEXA 90 in Vienna Austria we hope to have successfully established with this year's DEXA 91 a stage where scientists from diverse fields interested in application oriented research can present and discuss their work. This year there was a total of more than 250 submitted papers from 28 different countries in all continents. Only 98 of the papers could be accepted. The collection of papers in these proceedings offers a cross section of the issues facing the area of databases and expert systems i.e. topics of basic research interest on one hand and questions occurring when developing applications on the other. Major credit for the success of the conference goes to all of our colleagues who submitted papers for consideration and to those who have organized and chaired the panel sessions. Many persons contributed numerous hours to organize this conference. The names

of most of them will appear on the following pages In particular we wish to thank the Organization Committee Chairmen Johann Gordesch A Min Tjoa and Roland Wagner who also helped establishing the program Special thanks also go to Gabriella Wagner and Anke Ruckert Dimitris Karagiannis General Conference Chairman Contents Conference Committee
