Mir Sultan Khan:

Mir Sultan Khan R. N. Coles, 2015-01-15 Mir Sultan Khan was the most remarkable and amazing chess player who ever lived He was by far the first player of grandmaster strength from Asia He came from a country where chess as we know it was not played He had no book knowledge or training He knew nothing of opening theory or studies of the game He was brought from India as a servant and instructed by his master to play chess Yet he quickly established himself as one of the strongest players in the world defeating Capablanca Rubinstein Flohr Tartakower Bernstein Marshall and many other of the world's leading grandmasters although the title was not established at that time in tournament games He also drew several games with World Champions Alekhine and Euwe but never beat them Sultan Khan won many games in the endgame He often traded queens in the opening His games lasted a long time He defeated Capablanca in the endgame when Capablanca was thought of as being unbeatable and the strongest endgame player in the world In games where he salvaged a draw he appeared to be hopelessly lost against Euwe and Rubinstein All the games from Descriptive Notation to Algebraic Notation All 64 games in Algebraic Notation are to be found in a new appendix in the back of this book along with a concluding diagram for each game In addition four other games are included These are all games where R N Coles gave a diagram or part of the game but not the complete game One is an 80 move game mentioned on page 48 where Sultan Khan was able to salvage a draw in a position against the great Rubinstein that appeared to be hopelessly lost Next is an 87 move game which is mentioned in the introduction to game 24 in which Sultan Khan defeated Tartakover by offering a knight sacrifice That game in full is not in the original text probably because of its length even though it includes a cute knight sacrifice at the end The third is a game against Vera Menchik with a diagram on page 91 The fourth is a draw where he swindled World Champion Euwe into an endgame where he had the wrong colored bishop

The Best Games of Mir Sultan Khan R. N. Coles, 2003-10-01 At the height of the British Empire the chess loving Indian servant Sultan Khan arrived in the imperial capital as part of the feudal retinue of Sir Umar his high caste master While Sir Umar deliberated in the rarefied atmosphere of London conferences with British panjandra on the future of the Raj his retainer started to take on the British elite at chess Sweeping all before him the Indian genius entered the international arena where playing top board for the British Empire team he defeated grandmasters such as Rubinstein

Mir Sultan Khan Richard Nevil Coles, 1965 **Mir Sultan Khan** Richard Nevil Coles, 1977 **Sultan Khan** Daniel King, 2020-04-08 Hardly anyone paid attention when Sultan Khan arrived in London on April 26 1929 A humble servant from a village in the Punjab Khan had little formal education and barely spoke English He had learned the rules of Western chess only three years earlier yet within a few months he created a sensation by becoming the British Empire champion Sultan Khan was taken to England by Sir Umar Hayat Khan an Indian nobleman and politician who used his servant's successes to promote his own interests in the turbulent years before India gained independence Sultan Khan remained in Europe for the best part of five years competing with the leading chess players of the

era including World Champion Alexander Alekhine and former World Champion Jose Raoul Capablanca His unorthodox style often stunned his opponents as Daniel King explains in his examination of the key games and tournaments in Khan's career Daniel King has uncovered a wealth of new facts about Khan as well as dozens of previously unknown games For the first time he tells the full story of how Khan a Muslim outsider was received in Europe of his successes in the chess world and his return to obscurity after his departure for India in 1933 *The History of Afghanistan (6 Vol. Set)* Fayz Muhammad Kātib Hazārah,2012-12-19 The Sir j al taw r kh is the most important history of Afghanistan ever written This pinnacle of the rich Afghan historiographic tradition is available in English translation annotated fully indexed including an introduction eight appendices Persian English and English Persian glossaries and bibliography *The Forgotten Indians* Harshit Kumar,2024-03-15 This captivating book sheds light on the remarkable contributions made by Indians in various fields highlighting their groundbreaking discoveries and extraordinary achievements that preceded those of individuals from any other part of the world Astonishingly these individuals have been largely forgotten overshadowed by the widely celebrated accomplishments of Greek figures Within its pages readers will discover a wealth of knowledge about the pioneering endeavors of Indian visionaries who were ahead of their time While the names of Alexander Pythagoras Ptolemy Copernicus Galileo and Newton are frequently discussed and praised it is a curious phenomenon that the equally deserving figures such as Ashoka Aryabhata and Brahmacharya remain in the shadows of historical discourse The book compellingly explores this disparity offering insights and answers to the questions that naturally arise Moreover this book is merely the first installment in a captivating series that promises to delve deeper into the subject matter With subsequent parts already in the works readers can anticipate a multitude of future volumes that will further unveil the rich tapestry of Indian contributions throughout history *The Indian Chessmaster Malik Mir Sultan Khan* Ulrich Geilmann,2018-07-02 *Antiquities of Indian Tibet* August Hermann Francke,1926 **American Chess Bulletin** Hartwig Cassell,Hermann Helms,1930 **The History of Professional Chess in Britain, 1774-2000** Adrian Harvey,2024-10-18 This is the first history of British chess to embrace the modern era commencing with the earliest club established in Britain in 1774 and going right through to 2000 Its principal focus is on those people who used the game to earn a living professionals such as Staunton and Short though also deals with prominent amateurs for instance Thomas and Penrose The book is interested in social attitudes towards chess notably early struggles against moral disapproval and its gradual ascent to become an accepted and popular recreation Attention is paid to the evolution of various theoretical ideas notably the ideas of Philidor and Steinitz The major chess events in Britain are dealt with the scores of games being provided some with brief annotation and tables of results Amongst the events covered are matches such as de la Bourdonnais v McDonnell and tournaments such as London 1851 and 1883 **The Indian Law Journal** ,1910 **The British Chess Magazine** ,1929 **Re-Engineering The Classics** Matthew Sadler,Steve Giddins,2023-05-03 Are you ready for the truth about forty of the most fascinating and complex chess games

Max Euwe's Best Games Jan Timman, 2022-05-22 World Chess Champion Max Euwe who held the title from 1935 1937 is one of the greatest chess players in history Much has been

written about him and he authored dozens of books himself But missing was an outstanding collection of games of this efficient man eating tiger as the American grandmaster Reuben Fine once called Euwe Max Euwe's Best Games fills this gap And it couldn't have been written by anyone else than Euwe's successor in Dutch chess Jan Timman World Champion finalist and arguably one of the leading chess analysts of our time This book offers eighty of Max Euwe's games annotated with great clarity starting in his early twenties when he worked his way to the world top up until his late seventies when he was still a force to be reckoned with It is incredible how high Euwe's level of play was for over fifty years and how attractive his attacking style was Timman made many discoveries in Euwe's best and most famous games but has also unearthed several lesser known brilliancies Some interesting paradoxes are addressed along the line For example although he was an amateur almost his entire life Euwe was better versed in opening theory than most of his top level opponents Although he was the underdog he beat the mighty Alexander Alekhine in an epic World Championship Match in 1935 At 52 he could still beat top players like Geller and Najdorf with fantastic attacking play in the Zurich Candidates Tournament And when he was over seventy he was still highly dangerous for the new upcoming Dutch generation This game collection of an often underrated World Champion analysed by top grandmaster Jan Timman is a must have for anyone interested in World Championship chess
