*Bits of Life* Anneke M. Smelik, Nina Lykke, 2010-07-01 Since World War II the biological and technological have been fusing and merging in new ways resulting in the loss of a clear distinction between the two This entanglement of biology with technology isn t new but the pervasiveness of that integration is staggering as is the speed at which the two have been merging in recent decades As this process permeates more of everyday life the urgent necessity arises to rethink both biology and technology Indeed the human body can no longer be regarded either as a bounded entity or as a naturally given and distinct part of an unquestioned whole Bits of Life assumes a posthuman definition of the body It is grounded in questions about today s biocultures which pertain neither to humanist bodily integrity nor to the anthropological assumption that human bodies are the only ones that matter Editors Anneke Smelik and Nina Lykke aid in mapping changes and

transformations and in striking a middle road between the metaphor and the material In exploring current reconfigurations of bodies and embodied subjects the contributors pursue a technophilic yet critical path while articulating new and thoroughly appraised ethical standards    **A Miracle of Life** Tonya Mills,2017-11-28 A Miracle of Life is a testimony about a mother s unconditional love for her child when giving birth she would not take the opinion of one doctor telling her We have done all we can do You can take your baby home with meds to keep her comfortable until she passes She requested the opinion of another doctor who specialized in her daughter s condition congenital heart defect The hospital would become a home away from home for mother and child because Ty was born with not one but all four defects Her first surgery would take place with her being three days old and that was just the start of many more to come Every doctor appointed after that surgery appeared to reveal a new condition Ty was going to need feeding tubes for the rest of her life she couldn t hear talk see or walk on her own Mom thought at one point she would lose her mind and she turns to drinking to relieve from her trials That was only a temporary fix the problems were still there the next day She didn t think she could take any more bad news but with much prayer family support and support from her church family her daughter beat all odds that were stacked up against her thus being Mom s miracle

**The sacred life of Jesus Christ the son of God, taken in order from the Gospels, by W.J.
