Mirror History:

The Mirror Sabine Melchoir-Bonnet, 2014-06-03 This engaging and witty cultural history traces the evolution of the mirror from antiquity to the present day illustrating its journey from wondrous object to ordinary trinket With its earliest invention the mirror allowed us to gaze upon ourselves bestowing a power both fascinating and terrifying **Mirror, Mirror** Mark Pendergrast, 2009-04-28 Of all human inventions the mirror is perhaps the one most closely connected to our own consciousness As our first technology for contemplation of the self the mirror is arguably as important an invention as the wheel Mirror Mirror is the fascinating story of the mirror's invention refinement and use in an astonishing range of human activities from the fantastic mirrored rooms that wealthy Romans created for their orgies to the mirror's key role in the use and understanding of light Pendergrast spins tales of the 2 500-year mystery of whether Archimedes and his burning mirror really set faraway Roman ships on fire the medieval Venetian glassmakers who perfected the technique of making large flat mirrors from clear glass and for whom any attempt to leave their cloistered island was punishable by death Isaac Newton whose experiments with sunlight on mirrors once left him blinded for three days the artist David Hockney who holds controversial ideas about Renaissance artists and their use of optical devices and George Ellery Hale the manic depressive astronomer and telescope enthusiast who inspired and gave his name to the twentieth century's largest ground based telescope Like mirrors themselves Mirror Mirror is a book of endless wonder and fascination The Full-Length Mirror Wu Hung, 2022-11-28 Beautifully illustrated a stirring and wide ranging reflection on art technology culture and the full length mirror This book tells two stories about the full length mirror One story through time and space crisscrosses the globe to introduce a broad range of historical actors kings and slaves artists and writers merchants and craftsmen courtesans and commoners The other story explores the connections among objects painting and photography the full length mirror providing a new perspective on historical artifacts and their images in art and visual culture The Full Length Mirror represents a new kind of global art history in which global is understood in terms of both geography and visual medium a history encompassing Europe Asia and North America and spanning over two millennia from the fourth century BCE to the early twentieth century History Made, History Imagined David Walter Price, 1999 In this provocative and original study David Price investigates history as a form of poesis the act of making in language and suggests that certain novels can provide the best means of engaging in historical interpretation Contending that the fundamental act of narration itself including the narration of history expresses a system of values Price explores the work of seven contemporary novelists who share a commitment to reexamining history as idea and a refusal to accept history as given Within a theoretical framework based on Friedrich Nietzsche and Giambattista Vico Price investigates how these writers Carlos Fuentes Susan Daitch Salman Rushdie Michel Tournier Ishmael Reed Graham Swift and Mario Vargas Llosa create a discursive space between history and literature a space within which history can be questioned and the making of history explored Through their

novels these writers replace the univocal expression of history as a description of what really happened with a polyvocality of competing discourses languages and points of view Price s investigation of three modalities of the poietic novel the history of forgotten possibilities the construction of countermemory and cultural critique and history as myth has far reaching implications for how we read and question the narratives we understand as history By treating the past as a dynamic flow of values rather than a fixed collection of facts History Made History Imagined fosters a deeper understanding not only of literature and philosophy but also of history and our relationship to it Etruscan Myth, Sacred History, and Legend Nancy Thomson de Grummond,2006-12-07 Accompanying CD ROM contains all relevant illustrations from the book arranged in alphabetical order according to mythological character To increase the usefulness of the CD ROM supplementary images not in the book have been added P xv A History of Magic and Experimental Science: The first thirteen centuries of our era Lynn Thorndike,1923 A history of science and magic spanning the period from early Christianity through early modern Europe to the end of the 17th century **The Mirror Makers** Stephen R.
