Radicalism In The Contemporary Age, Volume 1 Seweryn Bialer, Sophia Sluzar, 2019-08-16 This volume Sources of Contemporary Radicalism begins with Seweryn Bialer's examination of the definitional aspects of radicalism as well as with the identification of specific contemporary sources of the radical impulse and the social groups that are the carriers of radicalism within society In the next two chapters Seymour Lipset and Stanley Rothman consider the case of the United States Lipset asks anew the question posed by Werner Sombart at the beginning of this century Why is there no socialism in the United States From the perspective of a century of literature addressed to this question he provides his own critique and explanation Rothman considers the relatively new phenomenon of student radicalism in the United States and on the basis of interviews with student activists and results of tests they agreed to take he offers hypotheses concerning their psychological motivation Sidney Tarrow's chapter presents a comparison and contrast of the societal sources contributing to the growth of radical movements in post World War II France and Italy Henry Landsberger in his chapter concentrates on one societal group the peasantry Landsberger addresses the methodological issue that arises in defining peasant discontent as radicalism and examines what it is that provides a new dimension to peasant discontent in modern times In the final chapter William Overholt presents a valuable interpretative survey of the literature on radicalism

The Philosophic Roots of Modern Ideology David E. Ingersoll, Richard K. Matthews, 1991 A collection of philosophically oriented essays on the three main political ideologies of liberalism communism and fascism **Machiavellis Revivus** Nevio Cristante, 2011-05-25 From an intensive academic study based primarily on Machiavelli s works critical arguments arise in this text that undermine not only the current day political mind set framework and practices but also the views established academically up to the point where the body politic formed by the Western classical tradition is dissipated and dispersed Comprised in a contrary unconventional manner similar to Machiavelli the basic essential factors of history religion power and authority were formulated as the four main chapters in this work by Nevio Cristante From it one can readily see the flaws today in the false praise in nostalgic historical hubris the forgetting of a brand of religion that is essential for healthy politics the overlooking of coercive forces that reduce politics to power and the loss of true authority In this book Cristante comprises Machiavelli as a virtuous unprecedented extreme humanist in stark contrast to the common incessant interpretations of him being a teacher of evil a diabolical soulless political advisor A subversive satirical interpretation of The Prince has been formed herein extending from the generated knowledge of history and the history of Machiavelli s own experience From the vivacious and unraveling Italian Renaissance a cogent force prompted Machiavelli to create his literary works in order to form an educational cure for the deteriorating human condition of his time and any time There is in Machiavelli a differing sense of newness from that which is commonly known today which circumvents its worth in this distinct educative interpretation Machiavelli goes back in time in order to produce lessons applicable to correct the shortages in his and every present day With a divergent view of the works of art and literature outlined in this analysis Machiavelli s education becomes revived today in creating a virtuous political spiritual and cultural dynamism as a battle cry

to repel the ignorance and great misfortunes in our human condition *Evolution Science and Ethics in the Third Millennium* Robert Cliquet, Dragana Avramov, 2018-01-10 The book aims to revitalise the interdisciplinary debate about evolutionary ethics and substantiate the idea that evolution science can provide a rational and robust framework for understanding morality It also traces pathways for knowledge based choices to be made about directions for future long term biological evolution and cultural development in view of adaptation to the expected probable and possible future and the ecological sustainability of our planetary environment The authors discuss ethical challenges associated with the major biosocial sources of human variation individual variation inter personal variation inter group variation and inter generational variation This book approaches the long term challenges of the human species in a holistic way Researchers will find an extensive discussion of the key theoretical scientific aspects of the relationship between evolution and morality Policy makers will find information that can help them better understand from where we are coming and inspire them to make choices and take actions in a longer term perspective The general public will find food for thoughts Global Responsibility Hans Küng, 2004-02-19 In this timely and urgent work Hans Kung reminds us Every minute the nations of the world spend 1 8 million dollars on military armaments Every hour 1500 children die of hunger related causes Every week during the 1980s more people were detained tortured assassinated made refugee or in other ways violated by acts of repressive regimes than at any other time in history Every month the world s economic system adds over 7 5 billion dollars to the catastrophically unbearable debt burden of more than 1 5 trillion dollars now resting on the shoulders of Third World peoples Every year an area of tropical forest three quarters the size of Korea is destroyed and lost Every decade if present global warming trends continue the temperature of the earth s atmosphere could rise dramatically with a resultant rise in sea levels that would have disastrous consequences particularly for coastal areas of all the earth s land masses In Global Responsibility the author offers important new approaches and concludes that There can be no peace among the nations without peace among the religions There can be no peace among the religions without dialogue between the religions There can be no ongoing human society without a global ethic Contemporary Political Ideologies Roger Eatwell, 2019-03-11 In everyday usage ideology tends to be a pejorative term synonymous with the dogmatic or fanatical This is not the sense in which the term is used in this book Nor does this book adopt the instrumental approach to ideology common among social scientists and Marxists which sees ideology as socially determined rather than as a body of relatively coherent and comprehensive beliefs of interest in their own right It is this last feature of ideologies which this book focuses on namely ideologies key assumptions and themes their intrinsic content This is not to deny that there are interesting questions to be asked about the social origins and role of ideologies However these questions would require a separate book to do them justice Moreover we live in an age of hyper change Suddenly in the last decade or so the ideologies which were in the ascendant in the early twentieth century seem to have entered terminal decline whilst other ideologies have been rejuvenated and newer ones have grown in force In general

these changes have undermined the left more than the right though the rise of new ideologies throughout the twentieth century has helped show the weaknesses classifying ideologies by the traditional left right spectrum

Fragments of Tragedy in Postmodern Film Sezen Kayhan,2014-10-16 Despite the theories about the death of tragedy this book explores fragments and reflections of tragedy in postmodern film Tragedy has changed and evolved with human society and its continuous chain from Ancient Greece to modern times has been broken by postmodernism However certain aspects of tragedy have continued to be used by literature and film in particular films with themes of chaos violence popular culture paranoia virtual reality and alienation often use aspects of tragedy The focus of this study is on these facets adopted by postmodern film

Divergent Traditions Orin Brightfield,AI,2025-02-20 Divergent Traditions examines a critical question Is societal progress faltering as traditional values decline without adequate replacements from the modern order The book explores the erosion of established norms and the shortcomings of modern ideologies focusing on how this divergence impacts societal well being The decline of traditional social structures such as family and community is examined alongside the rise of new ideologies questioning whether these new frameworks truly address the needs previously met by tradition This analysis considers the resulting societal fragmentation where shared values become elusive hindering collective action The book argues that our current era is not a simple transition from old to new but a period of divergence leading to a loss of social capital and increased polarization Drawing from historical and social science perspectives the book presents a nuanced understanding of tradition acknowledging its limitations while also recognizing its functional roles For instance the decline in civic engagement and intergenerational knowledge transfer are explored as specific examples of eroding traditions Beginning with a framework for understanding tradition and modernity the book progresses through case studies and analyses of contemporary ideologies It supports its arguments with sociological surveys historical analysis and case studies offering a balanced assessment of both tradition and modernity Divergent Traditions provides valuable insights for students policymakers and anyone interested in the challenges facing contemporary societies particularly those concerned about social cohesion and political polarization

Cowboy Politics John S. Nelson,2017-11-01 The politics of popular westerns are surprising in substance and significance especially of late Cowboy Politics shows how

westerns in literature cinema and television face the challenges of Western Civilization even more than the perils of American frontiers Its strategy is to compare key westerns with major theories of modern and postmodern politics So it analyzes novels from Owen Wister to Zane Grey and Larry McMurtry It focuses on films from the western revival beginning in the 1990s and featuring Clint Eastwood's *Unforgiven* while its interest in TV stretches from singing cowboys and *Gunsmoke* to David Milch's *Deadwood* Critics are apt to find in westerns the modern politics of Thomas Hobbes and John Locke They tap devices of individuality rationality contract sovereign enforcement and representation to overcome the chaotic violence of a wild zone *Cowboy Politics* examines how westerns often find such measures insufficient to tame the West as a culture of honor and anger that deteriorates into feudal vengeance Instead westerns see the West as the sunset land that is already growing old and moving on So westerns seek fresh starts informed by comparing civilizations more than demonizing savages Westerns worry that modern politics devolve into exploitation oppression spectacle and terror So they pursue supplements in such postmodern politics as republicanism perfectionism populism feminism and environmentalism Especially westerns explore politics of persuasive speech in action in public doing beauty and self reliance in the modes of Hannah Arendt and Ralph Waldo Emerson The first two chapters of *Cowboy Politics* explain how westerns do political theory for popular audiences by making many of our myths the symbolic stories of individuals and communities which we live daily The next three chapters trace the initially modern theories of government in many westerns Then western turns to republican honor rhetoric response ability and character tracking occupy the following four chapters And these set the stage for another four chapters on western attention to postmodern terror mythmaking celebrity spectacle and forgiveness The final two chapters analyze how late satirical and transformative westerns develop realist defenses for their surprisingly postmodern politics

Reconsidering Habermas's Colonization Thesis Roderick Condon, 2025-03-31 This book reconsiders Habermas's critique of capitalism as a foundation for a critical theory of neoliberalism Taking criticisms into account the author refines and redevelops Habermas's system lifeworld paradigm in three parts focusing on system lifeworld and communication The exposition unfolds through a new synthesis and convergence from within Habermas's frame of Axel Honneth Niklas Luhmann Talcott Parsons and Karl Marx This synthesis is interwoven with an account of the neoliberal turn such that social theory is historically contextualized and neoliberalism theoretically explained at one and the same time The end result is a reconstruction of the colonization thesis in a new theory of relinguistification advancing a communicative dialectical and reflexive theory of reification *Reconsidering Habermas's Colonization Thesis* will appeal to scholars of critical theory social theory sociology and cultural studies as well as readers interested in neoliberalism and the critique of capitalism

The Idea of Democracy in the Modern Era Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy s bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by theorists of the Enlightenment Bacon Locke Jefferson and reflected in America s founding then moves on to the mostly post Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today s world He advocates a reorientation of democracy that de emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era
