Modern Jewish Thinkers An Introduction Paperback:

An Introduction to Modern Jewish Thinkers Alan T. Levenson, Roger C. Klein, 2006 Highlighting well known Jewish thinkers from a very wide spectrum of opinion the author addresses a range of issues including What makes a thinker Jewish What makes modern Jewish thought modern How have secular Jews integrated Jewish traditional thought with agnosticism What do Orthodox thinkers have to teach non Orthodox Jews and vice versa Each chapter includes a short judiciously chosen selection from the given author along with questions to guide the reader through the material Short biographical essays at the end of each chapter offer the reader recommendations for further readings and provide the low down on which books are worth the reader's while *Introduction to Modern Jewish Thinkers* represents a decade of the author's experience teaching students ranging from undergraduate age to their seventies This is an ideal textbook for undergraduate classes

An Introduction to Modern Jewish Philosophy Norbert M. Samuelson, 2012-02-01 The book is divided into three sections The first provides a general historical overview for the Jewish thought that follows The second summarizes the variety of basic kinds of popular positive Jewish commitment in the twentieth century The third and major section summarizes the basic thought of those modern Jewish philosophers whose thought is technically the best and or the most influential in Jewish intellectual circles The Jewish philosophers covered include Spinoza Mendelssohn Hermann Cohen Martin Buber Franz Rosenzweig Mordecai Kaplan and Emil Fackenheim The text includes summaries and a selected bibliography of primary and secondary sources

How Judaism Became a Religion Leora Batnitzky, 2013-08-25 Is Judaism a religion a culture a nationality or a mixture of all of these This title tells the story of how Judaism came to be defined as a religion in the modern period and why Jewish thinkers have fought as well as championed this idea

Contemporary Jewish Philosophy Irene Kajon, 2020-04-02 This text introduces the most important Jewish philosophers of contemporary times from the point of view of their original approach to both Judaism and philosophy and include Hermann Cohen Franz Rosenzweig Martin Buber Leo Strauss Emmanuel Levinas It shows how for them the dialogue between Judaism and philosophy is necessary in order to avoid on one side an attachment to Jewish tradition which is only nationalistic or non rational and on the other an idea of philosophy which first of all focuses the problems of nature human existence in the world or God as the origin of being In reconstructing the intellectual evolution of each of these twentieth century philosophers with a view to their meaning today this book is unique and goes beyond the standard historical account provided by other books *Contemporary Jewish Philosophy* is essential reading for researchers and students of philosophy Judaism and the history of religions

Introduction to Modern Jewish Alan T. LEVENSON, 2000 *An Introduction to Modern Jewish Philosophy* Claire Elise Katz, 2013-11-19 How Jewish is modern Jewish philosophy The question at first appears nonsensical until we consider that the chief issues with which Jewish philosophers have engaged from the Enlightenment through to the late 20th century are the standard preoccupations of general philosophical inquiry Questions about God reality language and knowledge metaphysics

and epistemology have been of as much concern to Jewish thinkers as they have been to others Moses Mendelssohn for example was a friend of Kant Hermann Cohen's philosophy is often described as neo Kantian Franz Rosenzweig wrote his dissertation on Hegel And the thought of Emmanuel Levinas is indebted to Husserl In this much needed textbook which surveys the most prominent thinkers of the last three centuries Claire Katz situates modern Jewish philosophy in the wider cultural and intellectual context of its day indicating how broader currents of British French and German thought influenced its practitioners But she also addresses the unique ways in which being Jewish coloured their output suggesting that a keen sense of particularity enabled the Jewish philosophers to help define the whole modern era Intended to be used as a core undergraduate text the book will also appeal to anyone with an interest how some of the greatest minds of the age grappled with some of its most urgent and fascinating philosophical problems

Modern Jewish Thinkers Alan Levenson, 2000-09 But Modern Jewish Thinkers is more than a survey Each chapter includes a short judiciously chosen selection from the given author along with questions to guide the reader through the material Short biographical essays at the end of each chapter offer the reader recommendations for further readings and provide the low down on which books are worth the reader's further consultation and which are not BOOK JACKET Michael L. Jewish Concepts of Scripture Benjamin D. Sommer, 2012-01-01 What do Jews think scripture is How do the People of the Book conceive of the Book of Books In what ways is it authoritative Who has the right to interpret it Is it divinely or humanly written And have Jews always thought about the Bible in the same way In seventeen cohesive and rigorously researched essays this volume traces the way some of the most important Jewish thinkers throughout history have addressed these questions from the rabbinic era through the medieval Islamic world to modern Jewish scholarship They address why different Jewish thinkers writers and communities have turned to the Bible and what they expect to get from it Ultimately argues editor Benjamin D Sommer in understanding the ways Jews construct scripture we begin to understand the ways Jews construct themselves *Contemporary Jewish Theology* Elliot N. Dorff, Louis E. Newman, 1999 Contemporary Jewish Theology A Reader presents the most comprehensive collection to date of Jewish religious writings from the latter half of this century Featuring selections from both pre and post World War II thinkers this carefully constructed anthology highlights the

enormous range of theological viewpoints and methods that have characterized Jewish theological reflection in modern times. An extraordinarily rich compilation it represents many different perspectives including those of Orthodox thinkers and feminists, Israelis and Americans, rationalists and mystics, and post modernists. Extensive introductions place these writings in historical and philosophical context and identify the fundamental continuities and tensions among contemporary Jewish thinkers. Following a general introduction, the volume is organized into four parts. The first section includes representative selections from the major Jewish philosophers of the early twentieth century: Cohen, Rosenzweig, Buber, Kook, Kaplan, and Heschel. The second part includes recent essays on God, creation, revelation, redemption, covenant, chosenness, and law. The third section provides seminal essays on the Holocaust and the modern State of Israel, topics that have held tremendous importance for Jewish thinkers over the past few decades. The book concludes with a symposium on future directions in Jewish theology at the dawn of the twenty-first century and also provides extensive suggestions for further reading.

Contemporary Jewish Theology: A Reader is designed as a companion volume to the editors' earlier book *Contemporary Jewish Ethics and Morality: A Reader*. OUP, 1995. An exceptional introduction to contemporary Jewish thinking; it is an essential text for courses in Jewish thought and theology. **Reader's Guide to Judaism** Michael Terry, 2013-12-02. The Reader's Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition. The field is assessed in some 470 essays discussing individuals, Martin Buber, Gluckel of Hameln, literature, Genesis, Ladino, literature, thought, and beliefs, Holiness, Bioethics, practice, Dietary Laws, Passover, history, Venice, Baghdadi, Jews of India, and arts and material culture, Synagogue, Architecture, Costume. The emphasis is on Judaism rather than on Jewish studies more broadly.

Introduction to Modern Jewish Philosophy, 20?? *Year Book of the Central Conference of American Rabbis* Central Conference of American Rabbis, 1914. Containing the proceedings of the convention. **New Horizons in Sephardic Studies** Yedida K. Stillman, George K. Zucker, 2012-02-01. This book contains the most recent research in the intrinsically interdisciplinary field of Sephardic Studies. It provides new insights into Sephardic history, culture, folklore, languages, music, and literature from both new and established international scholars. **Jewish Thought** Oliver Leaman, 2006-09-27. This fresh and contemporary introduction to the Jewish faith, its philosophies, and worldviews explores debates which have preoccupied Jewish thinkers over the centuries and examines their continuing influence in contemporary Judaism. Written by Oliver Leaman, a leading figure in the field, the book surveys the central controversies in Judaism, including the protracted arguments within the religion itself. Topics range from the relations between Judaism and other religions such as Islam and Christianity to contemporary issues such as sex, gender, and modernity. Central themes such as authority and obedience, the relations between Jewish and Greek thought, and the position and status of the State of Israel are also considered. The debates are further illustrated by reference to the Bible as a profoundly realistic text in describing the long interaction between the Jews, their ancestors, and God, as well as discussions about major thinkers and passages from the ancient texts.

The Mishnah Talmud and Midrash Oliver Leaman s lively approach and light touch makes Jewish Thought ideal reading for anyone who wants to understand more about the Jewish faith and its outlook past and present **Shefa Quarterly** ,1977

Glorious, Accursed Europe Jehuda Reinharz,Yaacov Shavit,2010-07-31 An exhaustive study of how Jews imagined the idea of Europe and how it existed in their collective memory from the Enlightenment to the present **Jewish Philosophy and Western Culture** Victor J. Seidler,2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts In so doing it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter religious dialogue Victor J Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others He offers a critical reappraisal of the philosophical underpinnings of this western Christian culture which for so long has viewed Judaism with hostility Examining the work of seminal Jewish thinkers such as Philo Buber Mendelsohn Herman Cohen Leo Baeck Levinas Rosenzweig and others the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring **The Thinker** ,1894 **Judaism and the Doctrine of Creation** Norbert M. Samuelson,1994-11-24 The topic of this book is creation It breaks down into discussions of two distinct but interrelated questions what does the universe look like and what is its origin The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures Greek philosophy Jewish philosophy and contemporary physics His perspective is Jewish liberal and philosophical It is Jewish because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts It is philosophical because the subject matter is important in both past and present philosophical texts and to Jewish philosophy in particular Finally it is liberal because the authorities consulted include heterodox as well as orthodox Jewish sources The ensuing discussion leads to original conclusions about a diversity of topics including the limits of human reason and religious faith and the relevance of scientific models to religious doctrine
