## **Miracles And Metaphors:**

**Miracles and Metaphors** Abū al-Faḍl Gulpāyigānī, 1981      Religion as Metaphor David Tacey, 2015-06-01 Biblical stories are metaphorical. They may have been accepted as factual hundreds of years ago but today they cannot be taken literally. Some students in religious schools even recoil from the fairy tales of religion, believing them to be mockeries of their intelligence. David Tacey argues that biblical language should not be read as history and it was never intended as literal description. At best it is metaphorical but he does not deny these stories have spiritual meaning. Religion as Metaphor argues that despite what tradition tells us, if we believe religious language we miss religion's spiritual meaning. Tacey argues that religious language was not designed to be historical reporting but rather to resonate in the soul and direct us toward transcendent realities. Its impact was intended to be closer to poetry than theology. The book uses specific examples to make its case: Jesus, the Virgin Birth, the Kingdom of God, the Apocalypse, Satan, and the Resurrection. Tacey shows that with the aid of contemporary thought and depth psychology, we can re-read religious stories as metaphors of the spirit and the interior life. Moving beyond literal thinking will save religion from itself.

**States of Violence** Fernando Coronil, Julie Skurski, 2006 An exploration of the often unrecognized violent foundations of modern nations      *On Metaphoring* Wu, 2022-05-20 On Metaphoring engages in a metaphor way to communicate and inter-learn among cultures. Bundle A describes how metaphor bundles things similar into a group called a notion, a category, etc. How does metaphor bundle things? It familiarizes strange things with things that are familiar to enrich old familiar things with new things newly made familiar. Such metaphoric bundling creates a new family of knowledge. In this order, Bundle B characterizes metaphor as the origin of thinking, fit as a highway of intercultural communication where there is no shared way of thinking for each culture is a specific way of thinking. Bundle C shows how effective metaphor is in intercultural handling various problems of life and thinking. How metaphor works to interculture exhibits in fact what metaphor is. Such is how cultures understand one another, a cultural hermetic.

*The Miracles of Unbelief* Frank Ballard, 1901      Dating the Four Gospels Lawrence A. Murray, 2003-06 Dating the Four Gospels. This monograph begins by reviewing the various Higher Critical Analyses that tend to hold that Mark wrote first, that Matthew and Luke copied him, that John's works were probably not written by the Apostle John, and that Matthew and Luke were written long after the prophesied destruction of Jerusalem by non-eye or ear-witnesses. This author looks only at internal evidence within the four gospels. By comparing more than 100 verses and passages in them, he deduces that the hypothesized Q-written document does not exist and that the source is very likely the common developed oral gospel preached by the twelve apostles from 31 to 42 AD. From these comparisons, he shows the authors were first Matthew, then Mark, then Luke, then John, and that the three Synoptics were all written down in Greek well before 70 AD.

*The Book of God* George William Foote, 1899      **Nietzsche and the Fate of Art** Philip Pothen, 2017-08-03 This title was first published in 2002. Challenging the accepted orthodoxy on Nietzsche's views on art, this book seeks both to challenge and to establish a

new set of concerns as far as discourses on Nietzsche's thoughts on aesthetics are concerned whilst at the same time using such insights to illuminate more central concerns of Nietzsche scholarship such as the will to power the illusion truth question the eternal return the death of God tragedy Wagner Following the development of Nietzsche's thoughts on art from his earliest writings to his last Pöthner counters traditionally accepted interpretations by suggesting a need to recognize the deep suspicion and at times hostility that Nietzsche displays towards art and the artist throughout his text by emphasising the philosophical arguments underlying this deep suspicion and by viewing this tendency as something deeply connected to the other areas of his thought Readers with interests in Nietzsche studies aesthetics German philosophy and the philosophy of music will find this a particularly invaluable and distinctive contribution to Nietzsche scholarship
