Moore,2014-01-10

Most of George Gissing s 23 novels have a certain air of autobiography despite Gissing s frequent arguments that his fictional plots bear little resemblance to his own life and experiences Starting with *Workers in the Dawn* 1880 almost all of Gissing s fictional works are set in his own time period of late Victorian England and five of his first six novels focus on the working class poor that Gissing would have encountered frequently during his early writing career While most recent criticism focuses on Gissing s works as biographical narratives this work approaches Gissing s novels as purely imaginative works of art giving him the benefit of the doubt regardless of how well his books seem to match up with the events of his own life By analyzing important themes in his novels and recognizing the power of the artist s imagination especially through the critical works of Coleridge Wordsworth Shelley and Keats the author reveals how Gissing s novels present a lived feel of the world Gissing knew firsthand The author asserts that at most Gissing used his personal experiences as a starting point to transform his own life and thoughts into stories that explain the social personal and cultural significance of such experiences *British Women Fiction Writers, 1900-1960* Harold Bloom,1997

This text contains introductory essays by Harold Bloom and provides biographical information a wide selection of critical excerpts and complete bibliographies of 14 authors including Rose Macaulay Jean Rhys Dorothy Sayers and Virginia Woolf *Sons and Lovers* David Herbert Lawrence,1998
