Journeys to the Other Shore Euben, 2007-09 **Journeys to the Other Shore** Roxanne Leslie Euben, 2006 The contemporary world is increasingly defined by dizzying flows of people and ideas But while Western travel is associated with a pioneering spirit of discovery the dominant image of Muslim mobility is the jihadi who travels not to learn but to destroy Journeys to the Other Shore challenges these stereotypes by charting the common ways in which Muslim and Western travelers negotiate the dislocation of travel to unfamiliar and strange worlds In Roxanne Euben's groundbreaking excursion across cultures geography history genre and genders travel signifies not only a physical movement across lands and cultures but also an imaginative journey in which wonder about those who live differently makes it possible to see the world differently This extraordinary book shows that curiosity about the unknown the quest to understand foreign cultures critical distance from one's own world and the desire to remake the foreign into the familiar are not the monopoly of any single civilization or epoch Euben demonstrates that the fluidity of identities cultures and borders associated with our postcolonial globalized world has a long history one shaped not only by Western power but also by an Islamic ethos of travel in search of knowledge Publisher's description Greek Laughter and Tears Margaret Alexiou, 2017-06-05 Explores the range and complexity of human emotions and their transmission across cultural traditions What makes us laugh and cry sometimes at the same time How do these two primal seemingly discrete and non verbal modes of expression intersect in everyday life and ritual and what range of emotions do they evoke How may they be voiced shaped and coloured in literature and liturgy art and music Bringing together scholars from diverse periods and disciplines of Hellenic and Byzantine studies this volume explores the shifting shapes and functions of laughter and tears With a focus on the tragic the comic and the tragicomic dimensions of laughter and tears in art literature and performance as well as on their emotional socio cultural and religious significance it breaks new ground in the study of ancient and Byzantine affectivity Key features Includes an international cast of 25 distinguished contributors Prominence is given to performative arts and to interactions with other cultures Transitions from Late Antiquity to Byzantium and from Byzantium to the Renaissance form focal points from which contributors look backwards forwards and sideways Highlights the variety audacity and quality of the finest Byzantine works and the extent to which they anticipated the renaissance Zoroastrian Rituals in Context Michael Stausberg, 2018-08-14 Rituals it is agreed play a prominent role in Zoroastrianism one of the oldest continuous traditions of mankind In this book scholars from a broad range of disciplines make the first ever collective effort to address this issue From a historical and geographical perspective texts and contexts studied in these pages range from antiquity to modernity all the way from Japan China India Iran Europe to California The essays touch on questions of theory ritual texts change and performances gender and professional religion

priesthood lay people The rituals studied are placed in a broad scope of social and local settings ranging from the royal court to the needy from the rural village to the urban metropolis from the domestic to the public The Greeks Paul Cartledge, 2002-10-10 This book provides an original and challenging answer to the question Who were the Classical Greeks Paul Cartledge one of the most theoretically alert widely read and prolific of contemporary ancient historians TLS here examines the Greeks and their achievements in terms of their own self image mainly as it was presented by the supposedly objective historians Herodotus Thucydides and Xenophon Many of our modern concepts as we understand them were invented by the Greeks for example democracy theatre philosophy and history Yet despite being our cultural ancestors in many ways their legacy remains rooted in myth and the mental and material contexts of many of their achievements are deeply alien to our own ways of thinking and acting The Greeks aims to explore in depth how the dominant group adult male citizen attempted with limited success to define themselves unambiguously in polar opposition to a whole series of Others non Greeks women non citizens slaves and gods This new edition contains an updated bibliography a new chapter entitled Entr acte Others in Images and Images of Others and a new afterword *The Journal of Hellenic Studies* ,1928 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII English Mechanic and Mirror of Science and Art ,1871

Sicily from Aeneas to Augustus Christopher John Smith, John Serrati, 2000 This volume provides a chronological account of the island s history interwoven with discussions of Sicilian identity to show Sicily as a centre of affairs within the context of a fundamentally regional ancient world Syllecta Classica ,2007 **Scripta Classica Israelica** ,2000

Original Subjects Ala A. Alryyes, 2001 Original Subjects explores the interweaving of the child hero and the fortunes of a nation as these are portrayed in a wide selection of novels and national narratives in the French and English traditions Alryyes examines how these works deploy similar metaphors and signifying narratives in which a homeless child is central Taking up such disparate writers and novelists as Locke Rousseau Wollstonecraft Defoe Richardson Diderot Scott Stendhal Balzac and Disraeli as well as Homer St Augustine and Hannah Arendt this book argues that the generational parent child dynamic is key to understanding the structure of novels the theory of the state and the events of history Book Review Index Cumulation , 1989 Neil E.
