Thousand-Mile Song David Rothenberg, 2008-04-29 In *Thousand Mile Song* musician and philosopher David Rothenberg uses the enigma of whale sounds to explore whether we can truly understand nonhuman minds Interviewing scholars around the world as they attempt to decipher underwater music Rothenberg tells the story of scientists and artists confronting an unknown as vast as the ocean Along the way he plays his clarinet live with whales in their native habitats from Russia to Hawaii making interspecies music that appears on the included CD Richly detailed and deeply entertaining *Thousand Mile Song* is an imaginative look at the most intriguing creatures of the ocean *Orca's Song* Anne Cameron, 1987 A legend explaining how the Orca whale came to be colored black and white **Orca** Jason M. Feedback Daniel Belgrad, 2019-08-30 When we want advice from others we often casually speak of getting some feedback But how many of us give a thought to what this phrase means The idea of feedback actually dates to World War II when the term was developed to describe the dynamics of self-regulating systems which correct their actions by feeding their effects back into themselves By the early 1970s feedback had become the governing trope for a counterculture that was reoriented and reinvigorated by ecological thinking *The Culture of Feedback* digs deep into a dazzling variety of left of center experiences and attitudes from this misunderstood period bringing us a new look at the wild side of the 1970s Belgrad shows us how ideas from systems theory were taken up by the counterculture and the environmental movement eventually influencing a wide range of beliefs and behaviors particularly related to the question of what is and is not intelligence He tells the story of a generation of Americans who were struck by a newfound interest in and respect for plants animals indigenous populations and the very sounds around them threading his tapestry with cogent insights on environmentalism

feminism systems theory and psychedelics The Culture of Feedback repaints the familiar image of the 70s as a time of Me Generation malaise to reveal an era of revolutionary and hopeful social currents driven by desires to radically improve and feed back into the systems that had come before

Translation in the Performing Arts Enza De Francisci, Cristina Marinetti, 2025-03-31 This innovative collection showcases the interconnectedness of translation and the performing arts drawing on examples spanning languages eras and modes of performance to argue for the importance of re envisioning translation beyond writing Featuring contributions from established and emerging scholars the volume builds on recent epistemological shifts from a genre based view of translation toward a material based approach interested in how performance and embodiment shape translation Chapters highlight the ways in which in the nexus of translation and performing arts we can situate the cross cultural encounters and transnational exchanges that underpin translation beyond the ideology of print and help us to better understand the international circulation of performative works The volume covers a wide range of embodied practices from immersive theatre and intercultural opera to dance and sign language performance while also incorporating key perspectives from interviews with active practitioners Taken together the collection makes the case for a more nuanced understanding of translation one which accounts for the relationships between translation and the myriad forms of performance that permeate daily life This book will be of particular interest to students and scholars in translation studies visual culture theatre translation performing arts literary studies media studies and reception studies
