Pornography and Silence Susan Griffin, 2015-07-28 A masterwork of feminist ideology brilliantly exposing pornography as the antithesis of free expression and the enemy of liberty In this powerful and devastating critique poet philosopher and feminist Susan Griffin exposes the inherent psychological horrors of pornography Griffin argues that rather than encouraging expression pornographic images and the philosophies that support them actually stifle freedoms through the dehumanization subjugation and degradation of female subjects The pornographic mindset Griffin contends is akin to racism in that it causes dangerous schisms in society and promotes sexual regression fear and hatred This violent rift in Western culture is explored by examining the lives of six notable individuals across two centuries Franz Marc the Marquis de Sade Kate Chopin Lawrence Singleton Anne Frank and Marilyn Monroe The result is an extraordinary new approach to evaluating sexual health and the parameters of erotic imagination Griffin reveals pornography as not a love of the life of the body but a fear of bodily knowledge and a desire to silence Eros
