Mister Heracles:

Mister Heracles Simon Armitage, 2000 A brilliantly inventive rendering of Euripides most harrowing tragedy Euripides s Heracles is shocking and strange It begins in defeat and despair soars into triumph wavers on a razor s edge of dramatic uncertainty then plunges into carnage and horror of the darkest kind What is the greatest atrocity a man can commit What do we mean by hero Who can apportion blame to the workings of the human mind and who has the power to forgive These are questions thrown up by Euripides Heracles and tackled unflinchingly by Simon Armitage in language that brings the play s contemporaneity sharply into focus without diminishing its historical portent Mister Heracles was commissioned by the West Yorkshire Playhouse This volume includes a lengthy introduction by the author including a discussion of the translation process and commentary on the thinking behind the project *Dionysus Since 69* Edith Hall, Fiona Macintosh, Amanda Wrigley, 2004-01-08 Greek tragedy is currently being performed more frequently than at any time since classical antiquity This book is the first to address the fundamental question why has there been so much Greek tragedy in the theatres opera houses and cinemas of the last three decades A detailed chronological appendix of production information and lavish illustrations supplement the fourteen essays by an interdisciplinary team of specialists from the worlds of classics theatre studies and the professional theatre They relate the recent appeal of Greek tragedy to social trends political developments aesthetic and performative developments and the intellectual currents of the last three decades especially multiculturalism post colonialism feminism post structuralism revisions of psychoanalytical models and secularization **Greek Fragments in Postmodern Frames** Eleftheria Ioannidou, 2016-12-22 Greek Fragments in Postmodern Frames takes as its subject adaptation of Greek tragedy in the last decades arguing that rewritings of Greek tragic texts in this period can be used as a tool to uncover a significant dialogue with postmodernism Despite the large number of staged and written adaptations of Greek tragic texts in recent years the idea still persists that tragedy is incompatible with postmodernism with the long standing debate over the demise of the genre in the modern era undergoing a recent resurgence with the claim that postmodernism precludes tragedy both as an aesthetic form and as a way of perceiving the world This volume focuses on the adaptation of Greek tragedy between 1970 and 2005 and explores a wide range of adaptations from a variety of different countries the plays under discussion are characterized by an extended intertextual engagement with their prototype texts instead of simply adapting the Greek myth they rewrite the classical text in ways akin to the renegotiation of authorship and textuality proffered by poststructuralist thought Such adaptive strategies are not only integral to the wider problematics of interrogating the authority of the classical canon and the power structures embedded in its reception but also have also given rise to the development of peculiar tragic modes and tropes towards the end of the twentieth and into the twenty first century In analysing these tropes and demonstrating the ways in which Greek tragic texts have been rethought and rewritten in the adaptations presented this volume seeks on the one hand to show how tragedy continues to provide a means of

articulating contemporary cultural and political preoccupations while on the other it draws upon a cultural materialist methodology to resist fixed definitions of tragedy and to question established frames and representations

Theorising Performance Bloomsbury Publishing, 2013-11-20 This exciting collection constitutes the first analysis of the modern performance of ancient Greek drama from a theoretical perspective The last three decades have seen a remarkable revival of the performance of ancient Greek drama some ancient plays Sophocles Oedipus Euripides and Medea have established a distinguished place in the international performance repertoire and attracted eminent directors including Peter Stein Ariane Mnouchkine Peter Sellars and Katie Mitchell Staging texts first written two and a half thousand years ago for all male ritualised outdoor performance in masks in front of a pagan audience raises quite different intellectual questions from staging any other canonical drama including Shakespeare But the discussion of this development in modern performance has until now received scant theoretical analysis This book provides the solution in the form of a lively interdisciplinary dialogue inspired by a conference held at the Archive of Performances of Greek Roman Drama APGRD in Oxford between sixteen experts in Classics Drama Music Cultural History and the world of professional theatre The book will be of great interest to scholars and students of Classics and Drama alike

Euripides Emma Griffiths, 2006-02-24 Euripides play Herakles presents a very different portrait of the eponymous hero from that of popular imagination This text analyses the key themes and characters while situating the drama in the wider context of Greek tragedy and mythology

Theatre Record , 2001 *The Theatrical Cast of Athens* Edith Hall, 2006-10-12 An examination of ancient Greek drama and its relationship to the society in which it was produced By focusing on the ways in which the plays treat gender ethnicity and class and on their theatrical conventions Edith Hall offers an extended study of the Greek theatrical masterpieces within their original social context
