Mittens' Traumatic Experience Susan L. Reinhardt, 2005-09 *Recovering Boarding School Trauma Narratives* Christine Jack, 2020-04-28 *Recovering Boarding School Trauma Narratives* Christopher Robin Milne as a Psychological Companion on the Journey to Healing is a unique emotive and theorised narrative of a young girl's experience of boarding school in Australia Christine Jack traces its impact on the emerging identity of the child including sexual development and emotional capacity the transmission of trauma into adulthood and the long process of recovery Interweaving her story with the experiences of Christopher Robin Milne she presents her memoir as an exemplar of how narrative writing can be employed in remembering and recovering from traumatic experiences Unique and powerfully written Jack takes the reader on a journey into her childhood in Australian boarding school convents in the 1950s and 1960s Comparing her experience with Christopher Robin Milne's she interrogates his memoirs illustrating that boarding school trauma knows no boundaries of time and place She investigates their emerging individuality before being sent to live an institutional life and traces their feelings of longing and loneliness as well as the impact of the abuse each endured there As an educational historian Jack writes in a ground breaking way from the perspective of an insider and outsider revealing how trauma remains in the unconscious wielding power over the life of the adult until the traumatic memories are recovered emotions released and associated dysfunctional behaviour changed restoring well being Engaging the lenses of history life span and Jungian psychology feminist and trauma theory and boarding school trauma research this book positions narrative writing as a way of reducing the power of trauma over the lives of survivors Personal and accessible this book will be essential reading for psychologists and educational historians as well as students and academics of psychology sociology trauma studies ex boarders and those interested in the life of Christopher Robin Milne Trauma and Memory Paul S. Appelbaum, Lisa A. Uyehara, Mark R. Elin, 1997-05-29 The authenticity of memories of childhood sexual abuse has become one of the major social controversies of the 1990s As persons who report histories of abuse have sought remedies in civil and criminal proceedings in the courts the accuracy of their memories particularly when they have been recalled after a period of time has been subject to intense scrutiny This volume brings together many of the leading participants in the debate to provide a comprehensive picture of the psychological physiological and legal aspects of trauma Beginning by defining the opposing positions in the debate the contributors then offer a variety of perspectives on the nature of memory including reviews of some of the most exciting recent developments in this fast growing area of investigation Next consideration is given to the impact of trauma on memory both in adults and in children With this framework in place the authors turn to an examination of the variety of treatment approaches available to victims of trauma who are trying to cope with the painful consequences of those events The book argues against a unidimensional approach to trauma calling instead for a multidisciplinary synthesis that includes developmental neurobiological cognitive and psychodynamic perspectives Chapters address the legal dilemmas

for patients mental health professionals and society as a whole that have arisen from the trauma and memory controversy. Most importantly the editors shift the focus of their discussion from the laboratory to the courtroom and from the research journal to the psychotherapist's office looking at the issues from every relevant angle. This is the only book in the field to treat the trauma and memory controversy comprehensively from basic research on memory processes through clinical approaches to legal and policy issues. Trauma and Memory is a valuable tool for clinicians treating patients with traumatic memories. It is also intended for psychologists, physicians, social workers, and lawyers who need a comprehensive reference on trauma and sexual abuse during childhood.
