**Mobilizing Citizens for Better Schools** Robert F. Sexton, 2004-03-20 Tired of the complacent attitudes Kentucky politicians showed toward education the Prichard Committee formed as an organization to galvanize the citizens of Kentucky to attack the state's historic educational deficits. The committee's campaigning helped prepare the way for the passage of the Kentucky Education Reform Act in 1990 and continues to work for school reform today. Based on his wealth of experience and success with the Prichard Committee for Academic Excellence, Sexton provides invaluable guidance for citizens of all states who are interested in implementing school reform.

**Mobilizing Interest Groups in America** Jack L. Walker, 1991 Describes the development of interest groups in the USA mainly from the 1960s to the 1990s. Using the results of two national surveys of all membership associations operating in Washington in 1980 and 1985 examines the ways in which different types of social groups develop the organizational structures necessary to represent themselves. Describes methods for financing these groups and investigates the strategies they use to influence American politics including litigation strategies. Considers occupationally based groups in the profit sector and in the nonprofit sector and citizens groups which are open to all. Examines the extent of influence of different groups.

**Mobilizing for Democracy** Vera Schatten Coelho, Bettina von Liers, 2010-09-09. Mobilizing for Democracy is an in-depth study into how ordinary citizens and their organizations mobilize to deepen democracy. Featuring a collection of new empirical case studies from Angola, Bangladesh, Brazil, India, Kenya, Nigeria, and South Africa, this important new book illustrates how forms of political mobilization such as protests, social participation, activism, litigation, and lobbying engage with the formal institutions of representative democracy in ways that are core to the development of democratic politics. No other volume has brought together examples from such a broad Southern spectrum and covering such a diversity of actors: rural and urban dwellers, transnational activists, religious groups, politicians, and social leaders. The cases illuminate the crucial contribution that citizen mobilization makes to democratization and the building of state institutions and reflect the uneasy relationship between citizens and the institutions that are designed to foster their political participation.

**Ethnicity and Elections in Turkey** Gul Akdag,2014-09-15 Ethnicity and Elections in Turkey attempts to understand the mobilization strategies of incumbent parties to consolidate and increase their support among swing voters of an ethnic group By analyzing the strategy of AKP on voters of Kurdish origin it investigates the conditions under which it can mobilize them through the clientelistic network and its effectiveness in increasing support for the party This investigation is conducted through a district and neighborhood level case study conducted in the districts of Beyolu Sancaktepe and Beykoz situated in Istanbul The main hypotheses are tested through five different steps Firstly an examination of electoral results identifies a large number of voters of Kurdish origin as ideologically close to pro Islamist and pro Kurdish parties Secondly the book identifies the main organs responsible of mobilizing voters and defines the nature of the clientelistic network Thirdly the study suggests that the incorporation of these voters into the party's clientelistic network is a function of the number and time of entry of activists of Kurdish origin in the party's ranks and the intensity of their contacts with the voters Fourthly it reveals the effectiveness of clientelistic mobilization in consolidating and increasing support among swing voters of Kurdish origin Lastly the inner party organization and critical juncture experienced by the party are argued to be influential in its ability to increase its network through the incorporation of new activists Providing an alternative explanation of AKP's electoral success in Turkey this book is essential reading for students and scholars with an interest in Middle East politics political parties and political science     The State of Citizen Participation in America Hindy Lauer Schachter,Kaifeng Yang,2012-05-25 This book assesses citizen participation practice and research in the U.S. covering shifts in philosophy policy technology interactions minority experiences and voluntary organizations It includes innovative cases and methodologies serving as a resource for graduate courses and researchers in democratic governance     Opportunity Elmer Anderson Carter,1942
