Soft Computing in Software Engineering Ernesto Damiani, Mauro Madravio, 2012-12-06 Soft computing is playing an increasing role in the study of complex systems in science and engineering There is a large spectrum of successful applications of soft computing in very different applications domains such as aerospace communication consumer appliances electric power systems process engineering transportation and manufacturing automation and robotics It has taken a while to bring the early ideas of soft computing to an area and a discipline that seems to be more than appropriate for that Here it is This book studies SOFT computing in SOFTWARE engineering environment The book is HARD in terms of its results It covers a range of core topics from software engineering that are soft from its very nature selection of components software design software reuse software cost estimation and software processes Soft

computing differs from conventional hard computing in its ability to be tolerant of imprecision uncertainty partial truth and approximation The guiding principle of soft computing is Exploit the tolerance for imprecision uncertainty partial truth and approximation to achieve tractability robustness and low solution cost The role model for soft computing is the human mind This seems to be a natural fit with software engineering a human based development activity based on sound engineering principles A recent survey by researchers reveals that Software Engineering research tends to be quite self contained not relying on other disciplines for its thinking **Lone Mothers Between Paid Work and Care** Majella Kilkey,2018-02-06

This title was first published in 2000 This is a study which compares and contrasts how lone mothers relationships to paid work and care giving are constructed across 20 countries and with what outcomes for lone mothers levels of economic well being In doing so the book explores from an international perspective the implications of the re orientation of lone mothers citizenship within the UK policy field from that of care giver to paid worker The volume engages with feminist comparative social policy literature concerned with specifying a construction of citizenship appropriate to capturing international variations in women s social rights By incorporating social rights attached to paid work and care as well as those which enable lone mothers to move between sequential periods of paid work and care giving across the child rearing cycle the study makes a significant contribution to the literature *The EU and social inclusion* Marlier, Eric,Atkinson,

Tony,2009-04-21 Social cohesion is one of the declared objectives of the European Union and with some 16% of EU citizens at risk of poverty the need to fight poverty and social exclusion continues as a major challenge This book provides an in depth analysis of the EU Social Inclusion Process the means by which it hopes to meet this objective and explores the challenges ahead at local regional national and EU levels It sets out concrete proposals for taking the Process forward The book provides a unique analysis of policy formulation and assessment Setting out the evolution and current state of EU cooperation in social policy it examines what can be learned about poverty and social exclusion from the EU commonly agreed indicators Taking the position of outside but informed observers the authors explore the further development of the common indicators including the implications of Enlargement and consider the challenges of advancing the Social Inclusion Process strengthening policy analysis embedding the Process in domestic policies and making it more effective Proposing the setting of targets and restructuring of National Action Plans and their implementation they emphasise the need for widespread ownership of the Process at domestic and EU level and for it to demonstrate significant progress in reducing poverty and social exclusion The book will be invaluable to academics students and policy makers at sub national national and EU levels as well as to social partners and NGOs working towards a more inclusive society **ECAI 2020** Giuseppe De Giacomo,Bistra Dilkina,Michela Milano,Senén Barro,Alberto Bugarín,Jérôme Lang,2020-09-15 This book presents the proceedings of the 24th European Conference on Artificial Intelligence ECAI 2020 held in Santiago de Compostela Spain from 29 August to 8 September 2020 The conference was postponed from June and much of it conducted online due to the

COVID 19 restrictions The conference is one of the principal occasions for researchers and practitioners of AI to meet and discuss the latest trends and challenges in all fields of AI and to demonstrate innovative applications and uses of advanced AI technology The book also includes the proceedings of the 10th Conference on Prestigious Applications of Artificial Intelligence PAIS 2020 held at the same time A record number of more than 1 700 submissions was received for ECAI 2020 of which 1 443 were reviewed Of these 361 full papers and 36 highlight papers were accepted an acceptance rate of 25% for full papers and 45% for highlight papers The book is divided into three sections ECAI full papers ECAI highlight papers and PAIS papers The topics of these papers cover all aspects of AI including Agent based and Multi agent Systems Computational Intelligence Constraints and Satisfiability Games and Virtual Environments Heuristic Search Human Aspects in AI Information Retrieval and Filtering Knowledge Representation and Reasoning Machine Learning Multidisciplinary Topics and Applications Natural Language Processing Planning and Scheduling Robotics Safe Explainable and Trustworthy AI Semantic Technologies Uncertainty in AI and Vision The book will be of interest to all those whose work involves the use of AI technology
