New Woman Reader:

A New Woman Reader Carolyn Christensen Nelson, 2001 Understanding Women's Magazines Anna Gough-Yates, 2003-08-29 Understanding Women's Magazines investigates the changing landscape of women's magazines. Anna Gough-Yates focuses on the successes, failures, and shifting fortunes of a number of magazines including *Elle*, *Marie Claire*, *Cosmopolitan*, *Frank*, *New Woman*, and *Red* and considers the dramatic developments that have taken place in women's magazine publishing in the last two decades. Understanding Women's Magazines examines the transformation in the production, advertising, and marketing practices of women's magazines. Arguing that these changes were driven by political and economic shifts, commercial cultures, and the need to get closer to the reader, the book shows how this has led to an increased focus on consumer lifestyles and attempts by publishers to identify and target a new woman. Bernard Shaw Audrey McNamara, 2023-07-19 Shaw emerged as a playwright in the politically charged environment of 1892 for both female suffrage and Irish independence. His plays quickly advocated for societal changes with regard to women's roles while expanding this advocacy into considerations of Ireland. Shaw's engagement with marriage and union as a personal contract with nationhood have never before been considered as a methodology with which to view his work. This book demonstrates that Shaw was deeply engaged with and committed to the Irish question and to social and gender issues. Reader's Guide to Periodical Literature Supplement, 1917 Oscar Wilde's Society Plays Michael Y. Bennett, 2016-01-12 As the first collection of essays about Oscar Wilde's comedies, the contributors re-evaluate Oscar Wilde's society plays as comedies of manners to see whether this is actually an apt way to read Wilde's most emblematic plays. Focusing on both the context and the texts, the collection locates Wilde both in his social and literary contexts. **New Woman**, 1983 **The Routledge Companion to Victorian Literature** Dennis Denisoff, Talia Schaffer, 2019-11-11 The Routledge Companion to Victorian Literature offers 45 chapters by leading international scholars working with the most dynamic and influential political, cultural, and theoretical issues addressing Victorian literature today. Scholars and students will find this collection both useful and inspiring. Rigorously engaged with current scholarship that is both historically sensitive and theoretically informed, the Routledge Companion places the genres of the novel, poetry, and drama and issues of gender, social class, and race in conversation with subjects like ecology, colonialism, the Gothic, digital humanities, sexualities, disability, material culture, and animal studies. This guide is aimed at scholars who want to know the most significant critical approaches in Victorian studies, often written by the very scholars who helped found those fields. It addresses major theoretical movements such as narrative theory, formalism, historicism, and economic theory, as well as Victorian models of subjects such as anthropology, cognitive science, and religion. With its lists of key works, rich cross-referencing, extensive bibliographies, and explications of scholarly trajectories, the book is a crucial resource for graduate students and advanced undergraduates while offering invaluable support to more seasoned scholars. Women's Authorship and Editorship in Victorian Culture Beth Palmer, 2011-02-17 This

book considers the ways in which women writers used the powerful positions of author and editor to perform conventions of gender and genre in the Victorian period It examines Mary Elizabeth Braddon Ellen Wood and Florence Marryat s magazines *Belgravia* *Argosy* and *London Society* respectively alongside their sensation fiction to explore the mutually influential strategies of authorship and editorship The relationship between sensation s success as a popular fiction genre and its serialisation in the periodical press was not just reciprocal but also self conscious and performative Publishing sensation in Victorian magazines offered women writers a set of discursive strategies that they could transfer onto other cultural discourses and performances With these strategies they could explore enact and re work contemporary notions of female agency and autonomy as well as negotiate contemporary criticism Combining authorship and editorship gave these middle class women exceptional control over the shaping of fiction its production and its dissemination By paying attention to the ways in which the sensation genre is rooted in the press network this book offers a new broader context for the phenomenal success of works like Mary Elizabeth Braddon s *Lady Audley s Secret* and Ellen Wood s *East Lynne* The book reaches back to the mid nineteenth century to explore the press conditions initiated by figures like Charles Dickens and Mrs Beeton that facilitated the later success of these sensation writers By looking forwards to the New Woman writers of the 1890s the book draws conclusions regarding the legacies of sensational author editorship in the Victorian press and beyond **The**
