## New Women In Media:

Women and Media Carolyn M. Byerly, Karen Ross, 2006-01-17 Women and Media is a thoughtful cross cultural examination of the ways in which women have worked inside and outside mainstream media organizations since the 1970s. The book provides an overview of the key issues and developments in feminist media critiques and interventions over the last 30 years beginning with the extant literature in this growing field and ending with a new study of women's media activism in 20 nations. The authors recount and analyze the first hand narratives of nearly 100 women media activists whose work has contributed to the making of a feminist public sphere that has moved women leaders and agendas more forcefully into their societies. This highly original empirical base and the Model of Women's Media Action that the authors developed from it provides a unique account of women's struggles to improve, create and otherwise employ media in pushing for social change. The text is written in a concise, engaging style, laying out the central concerns about the women media relationship as it has operated in a variety of political critical contexts. It can be used alongside Women and Media International Perspectives 2004 by the same authors.

Women and Media Cynthia M. Lont, 1995 This text examines women's roles and impact in newspapers, women's magazines, advertising, television, entertainment, television news, film, rock music and music television. Each unit opens with a brief discussion of the history, portrayal and employment of women in a specific medium, followed by three essays: a content analysis that quantifies the roles of women in that medium, a descriptive history of a specific woman or women's media group that has affected the medium, and a critical essay that challenges readers to think about women and media in new and different ways. The text intertwines various perspectives throughout its chapters: women as news, women as newsmakers, and the portrayal of women to give an integrative approach to the study of women and media.

**Women, Media and Sport** Pamela J. Creedon, 1994-02-14 This book is the first to link feminism, sport and media theory, providing a broad cultural studies orientation. In addition to a theoretical analysis, it provides a practical look at models of sport media effects and the construction of the sportswoman and women's sports. Divided into three parts, the book provides an overview of the three areas, focuses on the print and broadcast media portrayal of women's sport, examining such issues as the relationship of sports promotion to media representations of women's sports, and the ways in which sports reporting is taught to future journalists, and seeks to develop a new model for the future.

**Women and Media** Karen Ross, Carolyn M. Byerly, 2008-06-09 Comprised of original research in diverse genres and media, Women and Media International Perspectives brings together eight international scholars to explore key issues of the gender media relation. Provides important insights into how gender is implicated in media industries. Address key issues of the gender media relation from an analysis of news media's coverage of women politicians to the marketing of girl power to strategizing for equality in newsrooms. Highlights the theme that media have the potential both to reinforce the status quo in power arrangements in society but also to contribute to new, more egalitarian ones. Includes an introduction by the editors that carefully maps the

contours of the international struggle between feminists and the media section overviews bibliographies key terms and discussion questions Women's Press Organizations, 1881-1999 Elizabeth V. Burt, 2000-06-30 Little has been published about press organizations and even less about women's press organizations. This book is the first to document the history of women's press organizations. In addition to rich historical accounts of some of these organizations it also provides a picture of many of the women journalists involved in these press organizations many of whom were leaders both in journalism and in the social movements of their time. This book is a description and analysis of forty women's press organizations that have been key to the development of women writers of the press since the first established organization in 1881. Each entry describes the challenges faced by women that brought about the establishment of the organization at that particular time and place some of the women who played key roles in the group's leadership the group's major activities and programs and its contributions to women of the press. The main purpose of these organizations was to provide women with a place where they could discuss professional issues and career strategies at a time when they were largely excluded from or marginalized by male dominated media institutions. However many also reflected the interests of some of the social and political reform movements associated with the women's movements of the 19th and 20th centuries including the woman suffrage peace and ERA movements. Although some of the organizations described here no longer exist new ones have taken on the challenge in a profession where women still do not have equity Women, Media, and Power in Indonesia Jane Ahlstrand, 2021-12-20

This book demonstrates the crucial link between gender and structures of power in democratic Indonesia and the role of the online news media in regulating this relationship of power. Using critical discourse analysis CDA as a theoretical framework and social actor analysis as the methodological approach this book examines the discursive representation of three prominent female Indonesian political figures in the mainstream Indonesian online news media in a period of social political transition. It presents newfound linguistic evidence in the form of discourse strategies that reflect the women's dynamic relationship with power. More broadly the critical analysis of the news discourse becomes a way of uncovering and evaluating implicit barriers and opportunities affecting women's political participation in Indonesia and other Asian political contexts. Indonesia's process of democratisation and the influential role of the online news media in shaping and reflecting political discourse Professional Discourses, Gender and Identity in Women's Media Melissa Yoong, 2020-11-23

This book examines the professional discourses produced in women's media in Malaysia and the subject positions that they make available for career women. Drawing on feminist critical discourse analysis critical stylistics and feminist conversation analysis it identifies a range of gendered discourses around employment and motherhood that are underpinned by postfeminism and neoliberal feminism. Through close linguistic analysis of magazine and newspaper articles and radio talk the study reveals that these discourses substitute balance individual success self transformation and positive feelings for structural change and entrench the very issues hindering gender workplace equality. Chapters discuss topics such as sexism work family balance extensive

and intensive mothering breadwinning gender stereotypes beauty work synthetic sisterhood media practices and gender equality policies This book will be of great interest to students and scholars of language and gender discourse analysis and media communication and cultural studies as well as policy makers media practitioners and feminist activists
