Antonín Dvořák's New World Symphony Douglas W. Shadle, 2021-03-12 Before Antonín Dvořák's New World Symphony became one of the most universally beloved pieces of classical music it exposed the deep wounds of racism at the dawn of the Jim Crow era while serving as a flashpoint in broader debates about the American ideals of freedom and equality Drawing from a diverse array of historical voices author Douglas W Shadle's richly textured account of the symphony's 1893 premiere shows that even the classical concert hall could not remain insulated from the country's racial politics Antonín Dvořák's New World Symphony Douglas W. Shadle, 2021 Antonín Dvořák's New World Symphony exposed the deep wounds of American racism at the dawn of the Jim Crow era while serving as a flashpoint in broader debates about the national ideals of freedom and equality Following several strands of musical thought during the second half of the nineteenth century this richly textured account of the symphony's 1893 premiere shows that even the classical concert hall could not remain insulated from the country's fraught racial politics Philanthropist and entrepreneur Jeannette Thurber 1850-1946 founded the National Conservatory of Music in 1885 to provide a world class but low cost professional music education to students from across the United States Though it progressed with fits and starts the conservatory eventually earned a congressional charter in 1891 giving it a unique stature compared to national rivals A year later Thurber hired Antonín Dvořák the famous Bohemian composer to be its executive musical director easily the highest profile individual to hold the position **Antonín Dvořák's New World Symphony** Douglas W. while his sense of America's wide open spaces after a visit to Iowa's prairies also inspired the feeling of the work. The fourth movement is among the most popular and recognizable single movements from the symphonic repertoire. This kaleidoscopic collection reflects on the multifaceted world of classical music as it advances through the twenty-first century. With insights drawn from leading composers, performers, academics, journalists, and arts administrators, special focus is placed on classical music's defining traditions, challenges, and contemporary scope. Innovative in structure and approach, the volume comprises two parts. The first provides detailed analyses of issues central to classical music in the present day, including diversity, governance, the identity and perception of classical music, and the challenges facing the achievement of financial stability in non-profit arts organizations. The second part offers case studies from Miami to Seoul of the innovative ways in which some arts organizations have responded to the challenges analyzed in the first part. Introductory material as well as several of the essays provide some preliminary thoughts about the impact of the crisis year 2020 on the world of classical music. *Classical Music: Contemporary Perspectives and Challenges* will be a valuable and engaging resource for all readers interested in the development of the arts and classical music, especially academics, arts administrators, and organizers, and classical music practitioners and audiences. **All Music Guide to Classical Music** Chris Woodstra, Gerald Brennan, Allen Schrott, 2005-09. Understanding Leadership Robert M. McManus, Gamaliel Perruci, 2019-12-09. Laozi, Marx, the Buddha, Ibsen, Machiavelli: these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries. Yet the contemporary student of leadership often overlooks many of these names in favor of more recent theorists hailing from the social sciences. *Understanding Leadership: An Arts and Humanities Perspective* takes a different angle, employing the works of the great philosophers, authors, and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership. The authors build their conceptual framework using their Five Components of Leadership Model, which recognizes the leader, the followers, the goal, the context, and the cultural values and norms that make up the leadership process. Supporting the text are a wealth of case studies that reflect on works such as Ayn Rand's novella *Anthem*, Eugène Delacroix's painting *Liberty Leading the People*, Charlie Chaplin's film *Modern Times*, Athol Fugard's play *Master Harold and the Boys*, Laozi's poetic work *Dao De Jing*, and Antonín Dvořák's *New World Symphony*. The authors also introduce studies from various world cultures to emphasize the role that cultural values and norms play in leadership. This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world. *Understanding Leadership: An Arts and Humanities Perspective* will be a valuable resource for both undergraduate and postgraduate leadership students, while leadership professionals will also appreciate the book's unique liberal arts and cultural approach. *New World Symphony*, Features the New World Symphony, an orchestral academy in Miami, Florida, that trains gifted graduates of distinguished music programs for leadership positions in orchestras and ensembles around the world. Describes the three-year fellowship program. *Symphony number five* Antonín Dvořák, 1928.
