**Agenda in American Politics** Robert J. Duffy, 2003 Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an interest in environmental protection As activist groups they played by the same rules for years But in 1994 the rules changed With the Republican takeover of Congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws As these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns This book traces those actions and shows what they mean for the future of environmentalism in the political arena While environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context Drawing on interviews with activists from a wide range of organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular Duffy s book opens a new window on the influence of Big Money in the supposedly democratic electoral process

*Creating the Hudson River Park* Tom Fox, 2024-04-12 The 4 mile long 550 acre Hudson River Park is nearing completion and is the largest park built in Manhattan since Central Park opened more than 150 years ago It has transformed a derelict waterfront protected the Hudson River estuary preserved commercial maritime activities created new recreational opportunities for millions of New Yorkers enhanced tourism stimulated redevelopment in adjacent neighborhoods and set a precedent for waterfront redevelopment The Park attracts seventeen million visitors annually Creating the Hudson River Park is a first person story of how this park came to be Working together over three decades community groups civic and environmental organizations labor the real estate and business community government agencies and elected officials won a historic victory for environmental preservation the use and enjoyment of the Hudson River and urban redevelopment However the park is also the embodiment of a troubling trend toward the commercialization of America s public parks After the defeat of the 2.4 billion Westway plan to fill 234 acres of the Hudson in 1985 the stage was set for the revitalization of Manhattan s West Side waterfront Between 1986 and 1998 the process focused on the basics like designing an appropriate roadway removing noncompliant municipal and commercial activities from the waterfront

implementing temporary improvements developing the Park s first revenue producing commercial area at Chelsea Piers completing the public planning and environmental review processes and negotiating the 1998 Hudson River Park Act that officially created the Park From 1999 to 2009 planning and construction were funded with public money and focused on creating active and passive recreation opportunities on the Tribeca Greenwich Village Chelsea and Hell s Kitchen waterfronts However initial recommendations to secure long term financial support for the Park from the increase in adjacent real estate values that resulted from the Park s creation were ignored City and state politicians had other priorities and public funding for the Park dwindled The recent phase of the project from 2010 to 2021 focused on development both in and adjacent to the Park Changes in leadership and new challenges provide an opportunity to return to a transparent public planning process and complete the redevelopment of the waterfront for the remainder of the 21st century Fox s first person perspective helps to document the history of the Hudson River Park recognizes those who made it happen and those who made it difficult and provides lessons that may help private citizens and public servants expand and protect the public parks and natural systems that are so critical to urban well being
