News And Power:

News and Power Rodney Tiffen, 1989 Based on detailed case studies of news coverage and upon interviews with over 200 senior journalists this study reveals the processes which produce news the strategies political figures adopt to influence its making and the means by which news coverage plays a role sometimes explosively in political events **The Power of News** Michael Schudson, 1995 Some say it's simply information mirroring the world Others believe it's propaganda promoting a partisan view But news Michael Schudson tells us is really both and neither it is a form of culture complete with its own literary and social conventions and powerful in ways far more subtle and complex than its many critics might suspect A penetrating look into this culture The Power of News offers a compelling view of the news media's emergence as a central institution of modern society a key repository of common knowledge and cultural authority One of our foremost writers on journalism and mass communication Schudson shows us the news evolving in concert with American democracy and industry subject to the social forces that shape the culture at large He excavates the origins of contemporary journalistic practices including the interview the summary lead the preoccupation with the presidency and the ironic and detached stance of the reporter toward the political world His book explodes certain myths perpetuated by both journalists and critics The press for instance did not bring about the Spanish American War or bring down Richard Nixon TV did not decide the Kennedy Nixon debates or turn the public against the Vietnam War Then what does the news do True to their calling the media mediate as Schudson demonstrates He analyzes how the news by making knowledge public actually changes the character of knowledge and allows people to act on that knowledge in new and significant ways He brings to bear a wealth of historical scholarship and a keen sense for the apt questions about the production meaning and reception of news today **News, Public Relations and Power** Simon Cottle, 2003-04-18 We live in increasingly promotional times States political parties and corporations as well as new social movements and diverse cultural interests today seek to put their message across via the media and in pursuit of disparate aims enhanced public understanding and legitimacy Introducing theoretical ideas and the latest empirical findings in this fast developing field of media communication study this book addresses such issues as the rapid growth of public relations in its impact on news production state information management strategies in times of internal political dissent political parties and mediated spin conducted at national and local levels the historically changing nature of war journalism environmental activism and pressure group communication and much more back cover **The Civil Power of the News** Jackie Harrison, 2019-10-18 This landmark book is concerned with the civil power of the news This power can be seen in the ways the news engages with public sentiment through a focus on three invariant civil concerns identity legitimacy and risk The book analyses how news stories engage with these concerns to make civil and anti civil judgements which influence public sentiment and determine the boundaries we place and maintain around the society we live in Through historical and contemporary examples of this boundary shaping and maintenance The Civil Power of the
