**The War on Football** Daniel J. Flynn,2013-08-19 From concussion doctors pushing science that benefits their hidden business interests to lawyers clamoring for billion dollar settlements in scam litigation America s game has become so big that everybody wants a cut And those chasing the dollars show themselves more than willing to trash a great sport in hot pursuit of a buck Everything they say about football is wrong Football players don t commit suicide at elevated levels die younger than their peers or suffer disproportionately from heart disease In fact professional players live longer healthier lives than American men in general More than that football is America s most popular sport It brings us together It is and has been a rite of passage for millions of American boys But fear over concussions and other injuries could put football on ice School districts are already considering doing away with football as too dangerous Parents who used to see football as character building now worry that it may be mind destroying Even the president has jumped on the pile by fretting that he might prevent a son from playing if he had one But as author Daniel J Flynn reports football is actually safer than skateboarding bicycling or skiing And in a nation facing an obesity crisis a little extra running jumping and tackling could do us all good Detailing incontrovertible fact after incontrovertible fact The War on Football Saving America s Game rescues reality from the hype and in doing so may just ensure that football remains America s game     [Working Mother](#) ,1986-12

English shows us that this fundamental belief persisted for more than a century until signs of chronic traumatic encephalopathy CTE were found in Pittsburgh Steelers center Mike Webster's brain. Suddenly the cost of taking it could mean long term damage not just to the body but also to the brain. Without anyone knowing it that risk had soared since the 1950s and 1960s when the hardshell plastic helmet became the primary weapon for blocking and tackling as taught by a new generation of college coaches led by the University of Alabama's Bear Bryant. In this cultural history of football at nearly all levels high school, college and pro, Oriard traces the perennial tension between health and culture regarding football as reflected in what the public read in newspapers, magazines and online. Through examining how we once felt and how we now feel about the game, Oriard challenges us to grapple with the possibility that football might be too violent in an intolerable way. *Newsweek* Raymond Moley, Samuel Thurston Williamson, Malcolm Muir, Rex Smith, Joseph Becker Phillips, 1987
