Ngo Support Organisations:

Decentralised Government and NGOs D. Rajasekhar, 1999 **The Power and Limits of NGOs** Sarah E.

Mendelson, John K. Glenn, 2002-09-11 Since the end of the Cold War a virtual army of nongovernmental organizations NGOs from the United States Britain Germany and elsewhere in Europe have flocked to Central and Eastern Europe and Eurasia These NGOs are working on such diverse tasks as helping to establish competitive political parties elections and independent media as well as trying to reduce ethnic conflict This important book is among the few efforts to assess the impact of these international efforts to build democratic institutions The case studies presented here provide a portrait of the mechanisms by which ideas commonly associated with democratic states have evolved in formerly communist states revealing conditions that help as well as hurt the process

Ragged Trousered NGOs Charles Buxton, 2019-05-17 Ragged Trousered NGOs is a compelling first hand account of the NGO sector and wider civil society over the past 40 years examining how and why people take collective action and engage in social development projects The book explores different organisational and methodological aspects of NGO work and social action asking what was possible to achieve at a grass roots level at different times in different economic and political contexts in the East and West Adopting a critical perspective the author argues that social action continues to play a vital and varied role and yet it struggles to challenge deep rooted power relations and traditional forms of behaviour in today s unequal world In particular the book draws on examples from the former Soviet Union in transition and the UK s voluntary sector over the last 40 years with a view to challenging Eurocentric views about organisations and communities The analysis adopts a Gramscian view of hegemony and an internationalist and anti war position on key issues arising in recent armed conflicts and the new cold war with Russia The book concludes by addressing the challenges for development workers noting the precarious nature of NGO work despite its many achievements and suggesting ways in which social activists can pick up more strength and support This book s practical perspective on progressive forms of organisational management will be of considerable interest to civil society and NGO development workers as well as to researchers and students in the fields of international development politics sociology and regional studies

The Politics of NGOs in Southeast Asia Gerard Clarke, 2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this The main focus is on the period from the mid 1990s when NGOs first became a notable force in the region It documents the complex relations between NGOs and other political actors including the state organised religion foreign donors the business sector and underground insurgent groups and their impact on NGO strategy
