Nicæa And Its Legacy An Approach To Fourth Century Trinitarian Theology:

Nicæa and Its Legacy Lewis Ayres, 2004-10-28 The first part of Nicæa and Its Legacy offers a narrative of the fourth century trinitarian controversy. It does not assume that the controversy begins with Arius but with tensions among existing theological strategies. Lewis Ayres argues that just as we cannot speak of one Arian theology so we cannot speak of one Nicene theology either in 325 or in 381. The second part of the book offers an account of the theological practices and assumptions within which pro Nicene theologians assumed their short formulae and creeds were to be understood. Ayres also argues that there is no fundamental division between eastern and western trinitarian theologies at the end of the fourth century. The last section of the book challenges modern post Hegelian trinitarian theology to engage with Nicæa more deeply.

Nicæa and Its Legacy, Engaging Nicene Trinitarianism Matthias Grebe, Nadine Hamilton, Christian Schlenker, 2025-08-21 Twelve original studies on Trinitarian theology and its enduring capacity to shape theological discourse ecclesiology and society today. The doctrine of the Trinity sits at the heart of Christian identity shaping how Christians think about faith, worship and community. The Nicene Creed recited in churches across the world invites not only a shared confession but also a deep and ongoing conversation about who God is and how God relates to the world. The Council's articulation of the consubstantiality of the Son with the Father laid the foundation for Trinitarian doctrine and safeguarded the mystery of salvation. It continues to serve as a rich source of interdisciplinary exploration and inspire fresh theological inquiry into the mystery of divine communion, the incarnation of Christ and the unity and identity of the Church. On the 1700th anniversary of this historic event, the essays in this volume collectively re-examine earlier debates, introduce fresh perspectives and renew dialogue around doctrines as vital today as in the fourth century. Emphasising the value of constructive engagement between traditions and exploring how Trinitarian theology continues to inform Christian witness in a complex and changing world, this volume offers essential reading for anyone seeking to deepen their understanding of a foundational aspect of Christian faith and history.

Metaphysics and the Tri-Personal God William Hasker, 2013-08-02 This is the first full length study of the doctrine of the Trinity from the standpoint of analytic philosophical theology. William Hasker reviews the evidence concerning fourth century pro Nicene trinitarianism in the light of recent developments in the scholarship on this period, arguing for particular interpretations of crucial concepts. He then reviews and criticizes recent work on the issue of the divine three in oneness, including systematic theologians such as Barth, Rahner, Moltmann and Zizioulas, and analytic philosophers of religion such as Leftow, van Inwagen, Craig and Swinburne. In the final part of the book, he develops a carefully articulated social doctrine of the Trinity which is coherent, intelligible and faithful to scripture and tradition.

The Trinity and the Religions, Loe Joo Tan, 2018-09-15 Will the followers of other religions who have not heard of the gospel be saved? Since the Second Vatican Council, the Catholic church has been grappling with this question, culminating in a recent document, *Dominus Iesus* in 2000. In the post-DI climate, the British theologian Gavin D Costa has

been described as a representative post DI theologian of religions And with good reason since other theologians such as Jacques Dupuis whose work along the lines of neo Rahnerianism have been curtailed by DI D Costa s work has spanned the past three decades and is aimed at developing a theology that echoes developments within the Catholic church s efforts to grapple with the existence of other religions In doing so he has appropriated the doctrine of the Trinity by reasoning it provides the very resources for interacting with Others and developed a form of Trinitarian inclusivism Based on the work of patristic theologians such as Lewis Ayres and Michel Barnes and their conception of a Pro Nicene theological matrix this book is an attempt to assess whether D Costa s utilization of trinitarian resources for contemporary concerns is faithful to the tradition The book concludes that while there is much to commend in D Costa s system there remain some features not fully consonant with classical Trinitarianism

Arianism: Roman Heresy and Barbarian Creed Guido M. Berndt,2016-04-15

This is the first volume to attempt a comprehensive overview of the evolution of the Arian churches in the Roman world of Late Antiquity and their political importance in the late Roman kingdoms of the 5th 6th centuries ruled by barbarian warrior elites Bringing together researchers from the disciplines of theology history and archaeology and providing an extensive bibliography it constitutes a breakthrough in a field largely neglected in historical studies A polemical term coined by the Orthodox Church the side that prevailed in the Trinitarian disputes of the 4th century C E for its opponents in theology as well as in ecclesiastical politics Arianism has often been seen as too complicated to understand outside the group of theological specialists dealing with it and has therefore sometimes been ignored in historical studies The studies here offer an introduction to the subject grounded in the historical context then examine the adoption of Arian Christianity among the Gothic contingents of the Roman army and its subsequent diffusion in the barbarian kingdoms of the late Roman world

The Fathers of the Church,: Eusebius of Caesarea, against Marcellus and on ecclesiastical theory ,2017 **The Fathers of the Church ,2020** **Orthodoxy,**

Process and Product Mathijs Lamberigts,Lieven Boeve,Terrence Merrigan,2009 From 2002 2008 three research groups from the departments of systematic theology and church history at the Faculty of Theology K U Leuven joined forces in an interdisciplinary project entitled Orthodoxy Process and Product The aim of the project was a church historical and systematic theological study of the determination of truth in church and theology The present volume contains contributions from all senior members of the project research group The contributions are the result of a research conference in 2006 in which both the question of the nature of truth as such and the process of determination of theological truth was approached from many different angles Thus questions from philosophy systematic theology and history of church and theology are discussed including such themes as the implications of various philosophical theories of truth for theology the question of religious pluralism and its ramifications for theological truth claims theological truth claims in the thought of Gregory of Nyssa Augustine John Driedo and at the Second Vatican Council In addition the meta question of the relationship between the historical and the systematic aspects of theological truth and the way in which the historical and systematic theological disciplines interact play an important role in this volume

Exegetical Epistles Jerome,2023-12-22 The Nicene and Post Nicene Fathers series of the 19th century rendered into English many of Jerome s treatises and letters while bypassing his biblical commentaries as well as some of his most important exegetical letters This omission which was not helpful to scholarship was probably due to the great length of these works Although the problem was partly remedied by some new English translations of the 20th century the present volume fills a significant lacuna by translating into English the Scriptural exegesis that Jerome conveyed in his relatively unknown epistles many of which were composed in response to queries he had received from various correspondents Many of these letters are presented here for the first time in English Based on the Hilberg edition this volume contains new translations introduced and annotated of Jerome s Epistles 18 21 25 30 34 37 42 53 55 56 59 64 65 72 74 78 85 106 112 119 121 129 130 and 140 Two newly translated letters from the famous exchange with Augustine over the meaning of Galatians 2 11 14 are included Epp 56 and 112 as well as a new rendering of Ep 130 to Demetrias which technically is not an exegetical letter but does present important information about the Pelagian controversy Overall this collection hopes to serve as a useful introduction to Jerome s approach to biblical interpretation of both the Old and the New Testament Some letters focus on the historical meaning of Pauline and Gospel texts while others

contain allegorical expositions of Old Testament passages Jerome's competence as a Hebrew scholar will become evident to the reader of this volume as well as his thorough acquaintance with the antecedent Greek and Latin Christian exegetical traditions
