Missing Persons Karen Shalev Greene, Llian Alys, 2016-10-14 A missing person is an individual whose whereabouts are unknown and where there is some concern for his or her wellbeing In the UK around 250 000 people are reported missing every year with the majority being children under the age of 18 Despite the fact that missing persons are a social phenomenon which encompasses vast areas of interest relatively little is known about those who go missing what happens to them while they are missing and what can be done to prevent these incidents from occurring This groundbreaking book brings together for the first time ideas and expertise across this vast subject area into one interconnected publication It explores the subjects of missing children missing adults the investigative process of missing person cases and the families of missing persons Those with no prior knowledge or professionals with focused knowledge in some areas will be able to expand their understanding of a variety of topics relevant to this field through detailed chapters which advance our understanding of this complex phenomenon discuss what is unknown and suggest the best and most important steps forward to further advance our knowledge

Missing People Seth Balfour, 2016-04-18 The Chilling True Stories Of Strange And Unusual Disappearances Unexplained Missing People And Missing Persons Cases Most of us just skip over the info about missing person cases on the news because our reality doesn't involve losing anyone we like or love But for those people whose day starts and ends with a prayer of safe homecoming the reality is cruel sad and dark Not that your reality will be affected if you listen to the missing persons updates but in an era when no child is left behind it's shameful to leave behind someone who somebody cares about Most missing people cases usually end up as murders A large number of them are just people who are trying to escape their life and forge a new identity But the most interesting cases are those with few clues and evidence to never be completely solved the cases remain as mysteries forever One thing's for sure even though they say that the truth always wins missing people cases can prove that with enough planning money and power you can make anybody disappear and get away with it

The Last Place You'd Look Carole Moore, 2011-03-03 What happens when a non custodial parent kidnaps her son Or a college student vanishes after a night out with friends Or a middle aged man seemingly drowns in calm waters What do family members friends and law enforcement do when a beloved goes missing Here Moore explores an array of missing persons scenarios using real life stories to uncover the various ways that people go missing the efforts made to retrieve them the emotional fallout for family and friends and the difficulties and challenges such cases present for all involved She covers parental abductions intentional disappearances stranger abductions the missing and mentally ill runaways foul play and other situations where people go missing In addition the criminal justice approach to missing persons is discussed as Moore looks at the science of missing persons DNA forensic dentistry etc resources for family and friends national organizations such as the National Center for Missing and Exploited Children and other groups involved in searching and recovering loved ones Here readers will discover how people are found how missing persons cases are treated

and how and why some stories have happy endings and others do not **Missing People** Seth Balfour, 2016-04-19 Volume 2 of the Missing People series Mysterious True Stories And Gripping Missing Persons Cases Of The Last Century Where Do Missing People Go Closure People who mysteriously lost someone crave this Whatever happened to their loved ones whether they are still alive somewhere or they died the people they left behind want to know For them knowing the ending no matter how horrible is better than continuously thinking of the terrible things that they might be suffering In the cases that we discuss closure is elusive It s a wonder whether the families will ever find the truth behind these disappearances cases Unexplained disappearances are something not to be taken lightly Just imagine how could someone not be found when in almost all corners authorities and concerned vigilant people are on the lookout If they were murdered then why does the perpetrator have the ability to hide the body without a law enforcers knowledge If they willingly disappeared how come no solid tip was observed Perhaps their disappearances are ought to teach us a lesson that anything can happen to anyone at anytime *Missing People* Phil Coleman, 2017-09-12 MISSING PEOPLE Gone Without A Trace An FBI studied showed in 2014 there were 83 957 people missing in the United States An average of 750 000 missing persons cases are reported each year with around 2 000 people being reported missing daily When a missing person report is filed the longer the case goes on without the person re appearing the more likely the missing person in question is dead from either homicide or natural causes The majority of missing people are white male adults missing children are rightfully more covered by the media as studies show that the first three hours after a child is missing is when they are most likely to be murdered if killing the child is the intent of the abductor With increased technology improvements in DNA evidence gathering and better law enforcement communication and cooperation solving missing persons cases should have gotten easier and been more successful over time However solving these cases is still difficult and many are never found This is the story of some of those cases affecting victims who still remain unfound Where did these people go What fate befell them And will they ever be found

Mills,2016-10-18 We often see flyers of missing people many of them are children who perhaps enjoyed too much of their escapade that they were separated from their parents Others were probably adults suffering from a mental condition that rendered them incapable of returning home Other missing people cases however are far more intriguing and creepy For example would you imagine a group of passengers abandoning a ship even though it was still capable of operating If pirates killed them then why would they bother bringing the bodies Another case was about three friends who went missing after talking to a man with blond hair They boarded a boat according to some witnesses but what transpired in the boat is still a mystery Other cases such as a lost plane a missing woman with bipolar disorder and a police cover up on the disappearance of a teenage boy can also be found in this book So if you want to share creepy real life tales to friends during a bonfire session then get ready for some disturbingly weird stories Amazon com

Snow,2012-03-29 Every year in the United States almost two million children run away from home In addition on the average the police in our country have at any one time over 100 000 active missing adult cases This book will show readers how with just a little advance preparation and insight they can greatly increase their chances of finding a missing loved one even after police have stopped actively looking With sensationalized child disappearances teenagers vanishing and adults faking their own deaths the challenge of finding missing persons often falls most directly on those who love them And though in past years this involved a considerable amount of footwork that is no longer the case With the advent of the Internet and the many new search engines available much of the searching and canvassing can now be done from computers Family members and friends looking for missing loved ones need to know what programs and databases to access though to get the search under way Snow reveals to readers the process the police use when trying to locate missing people of interest information that readers can then use to locate their own missing loved ones Using real stories and first hand accounts the author offers hope and guidance to those who may have given up the search for a child a spouse a parent or a friend **Missing Persons** Victor Ellanos,2016-04-18 The Stunning Cases Of Unsolved Missing People And Mysterious Missing Persons Cases The True Stories Every missing persons case is an agonizing experience The anguish the family has to go through is unimaginable at

least The life as they know it stops and stays paused The only time these people feel alive is when they hear news about their missing loved ones Everyday a lot of missing person reports are filed at police stations Some of them include lost children some of them are missing adults Some are purely by accident while some have a touch of malicious intent as to why the disappearance happened In this book we will have a detailed look at six people who have been living a normal life until they were plucked out from it for unknown reasons What their families have up to now are mere theories Some of them can already be considered dead what with the amount years that passed without solid leads For the cases that have happened recently their families are still hoping living by the belief that one day they will be united
