Star Trek: Deep Space Nine: The Never Ending Sacrifice Una McCormack, 2009-08-25 Continuing the post television Deep Space Nine saga this original novel shows the fall of the Cardassian empire as seen through the eyes of a young man with a foot in two worlds Rugal is an orphaned Cardassian who has been raised by the people his race once conquered the Bajorans Reluctantly repatriated to Cardassia as a teenager Rugal becomes the living witness to the downfall of the proud people to whom he was born first by the invading Klingons then during the Cardassians unholy pact with the Dominion a partnership that culminated in a near genocide Through it all Rugal s singular perspective illuminates the choices that brought the Cardassians to their ruin even as he learns that the Cardassian soul is not as easy to understand as he imagined

Star Trek: Deep Space Nine: Fearful Symmetry Olivia Woods, 2008-07-24 In our universe a Cardassian sleeper agent Iliana Ghemor was once surgically altered to resemble and replace resistance fighter Kira Nerys future Starfleet captain and hero of the planet Bajor s liberation That plan never reached fruition and the fate of the agent remained unknown until now Robbed of the past sixteen years Iliana Ghemor is back with a vengeance Over a decade and a half of imprisonment and abuse by her former masters has brought her to the brink of madness sustained only by the twisted belief that she is in fact the real Kira Nerys She has already made one near successful attempt on the real Kira s life but instead of assuming the identity of the woman she was intended to replace Ghemor has set her sights on the most unexpected target of all Kira s other double the malicious Intendent Bajor s iron fisted ruler in the alternate reality commonly known as the Mirror Universe But far more is unfolding in the Mirror Universe than Ghemor realizes and the heroes of Deep Space Nine somehow must stop the false Kira without derailing the delicate flow of history that must unfold if both universes and countless others are to survive Parallel stories set in both universes reflect and build upon each other in this Two in One Flip Book the continuation of both the ongoing DS9 saga as well as the Mirror Universe line of books

Star Trek: Deep Space Nine: These Haunted Seas David R. George III, Heather Jarman, 2008-06-17 It is a time of renewed hope As the U S S Defiant sails through the wormhole and charts a new course of discovery into the unknown ocean of the Gamma Quadrant powerful individuals from distant worlds gather at station Deep Space 9 to usher in a bright new era with the Dominion War now only a memory Bajor is poised at last to enter the Federation For Colonel Kira Nerys Commander Elias Vaughn and all those who follow them these are the voyages they were born to undertake But where they seek to go is defined by the journeys they have made before and ghosts populate these uncharted waters the spectres of lost leaders fallen friends forsaken lovers

vanquished enemies and earlier selves Some of these shades drive the travelers on others are drawn inexorably into their wake but all make their presence felt and in feeling the men and women of DS9 and the Defiant must somehow navigate the perilous rapids of their pasts in order to find the future Originally published as *Twilight and This Gray Spirit* the first two novels in the critically acclaimed Mission Gamma series *These Haunted Seas* is the next chapter of the epic saga begun in *Twist of Faith* continuing the chronicles of Star Trek Deep Space Nine beyond the small screen propelling its heroes to realms they could never have imagined and truths they cannot escape

Star Trek: Deep Space Nine: The Soul Key

Olivia Woods, 2009-07-28 Continuing the events from Star Trek Fearful Symmetry a new novel in the ongoing Star Trek Deep Space Nine series set after the end of the critically acclaimed television show Captain Kira's lookalike Iliana Ghemor dreams of fulfilling a prophecy that will mark her as the one true Emissary of the mirror universe a messianic figure who will lead her followers into a war that could trigger the cleansing of countless alternate Kiras in countless parallel realities But the stakes are higher than anyone imagines for the pull of destiny tugs at other souls who are swept into the vortex of the Prophets remote and timeless beings who have set these events in motion Yet the outcome of this struggle for the fate of one universe will ripple across many others giving shape to a future that will prove to be greatest trial yet for the heroes of station Deep Space 9

Living with Star Trek Lincoln Geraghty, 2007-03-30 There is a wealth of

literature on Star Trek and this book is a welcome and original contribution to it The book not only sets Star Trek in dialogue with ideas and stories of utopia community self improvement that are central to American culture and history but goes further to examine the ways in which these are taken up and used by ordinary fans who engage with Star Trek in complex and significant ways Lincoln Geraghty explores for example Star Trek s multiple histories and how Star Trek has used the Puritan American Jeremiad one of the nation s foundational texts to create a narrative that relates how through communal effort and personal change utopia can be achieved He discusses how fans define the series as a blueprint for the solution of such social problems in America as racism and war and shows how they have used the series to cope with personal trauma and relate to such characters as Data and Seven of Nine in moments of personal transformation This is all in all an enjoyable and revealing book on Star Trek s active relationship with its many thoughtful fans

New Boundaries in Political Science Fiction Donald M. Hassler, Clyde Wilcox, 2008 This book offers an interpretation of the evolution of a growing genre in literary film and television As a follow up to their 1997 collection Political Science Fiction Hassler and Wilcox have assembled twenty four noted international scholars representing diverse fields of inquiry to assess the influential voices and trends from the past decade in New Boundaries in Political Science Fiction The terrors and technologies that permeate our daily lives have changed radically in the past decade further highlighting the underlying speculations on our contested future that remain the core of this genre In surveying the vast expanse of politically charged science fiction of recent years the editors posit that the defining dilemma for these tales rests in whether identity and meaning germinate from progressive linear changes or progress or from a continuous return to primitive realities of war death and the competition for survival The discussion of political implications ranges among writers from H G Wells Robert A Heinlein Ursula Le Guin and Isaac Asimov to more radical recent voices such as Iain M Banks William Gibson Joanna Russ Philip K Dick and China Mieville While emphasizing the literature the collection also addresses political science fiction found on film and television from the original Star Trek through the newest incarnation of Battlestar Galactica
