Taumua,2023-10-05 Greetings The **THE MAGNIFICENCE OF THE 3** title was

extracted from a quote attributed to the legendary NIKOLA TESLA stating that If you only knew the magnificence of the 3 6 and 9 then you would have the key to the universe The magnificence of the three as I claim was a reference to the atoms three particles Yes I found the ATOM in the Torah If you know then you know the implications As I followed its tracts to the New Testament God revealed to me the identities of the Tree of Knowledge Tree of Life Garden of Eden and the Ark of the Testimony along the way Scientists define their design and purposes without understanding and inadvertently reveal God's hidden treasures Come review the record for yourself and for your elders before they move on You will never fully know God until you know what this Garden is and its Trees God's design is a thing of beauty and it cannot be accessed with faith So enjoy and meet God the Scientist Creator of Heaven and Earth

*The Meaning of Liberty Beyond Earth* Charles S. Cockell,2014-09-24 The purpose of this book is to initiate a new discussion on liberty focusing on the infinite realms of space The discussion of the nature of liberty and what it means for a human to be free has occupied the minds of thinkers since the Enlightenment However without exception every one of these discussions has focused on the character of liberty on the Earth The emergence of human space exploration programs in the last 40 50 years raise a fundamental and new question what will be the future of liberty in space This book takes the discussion of liberty into the extraterrestrial environment In

this book new questions will be addressed such as Can a person be free when the oxygen the individual breathes is the result of a manufacturing process controlled by someone else Will the interdependence required to survive in the extremities of the extraterrestrial environment destroy individualism What are the obligations of the individual to the extraterrestrial state How can we talk of extraterrestrial liberty when everyone is dependent on survival systems *Mission Studies* ,1917 *The Highway of Mission Thought* T. Bronson Ray,1907 **The Making of Mission Communities in East Africa** Robert W. Strayer,1978-01-01 The Making of Mission Communities in East Africa calls into question a number of common assumptions about the encounter between European missionaries and African societies in colonial Kenya The book explores the origins of those communities associated with the Anglican Church Missionary Society from 1875 to 1935 examines the development within them of a mission culture probes their internal conflicts and tensions and details their relationship to the larger colonial society Professor Strayer argues that genuinely religious issues were important in the formation of these communities that missionaries were ambivalent in their attitudes toward modernizing change and the colonial state alike and that mission communities possessed substantial attractions even in the face of competition with independent churches Dr John Lonsdale of Trinity College Cambridge has said that It is a sensitive piece of revisionist history which breaks down the simple dichotomy of missions and Africans commonly found in earlier historiographies and even in the period of profound crisis over female circumcision in Kikuyuland In this Professor Strayer shows convincingly how mission communities could be preserved from destruction by principled divisions between Africans as much as between their white missionaries He has pursued themes rather than events and has therefore been able to make remarkably intimate observations of mission communities which were following their own internal patterns of growth yet within the context of a deepening situation of colonial dependence *The Mission Field* ,1885 *Elder's Journal of the Southern States Mission* ,1907
