New Western History:

Trails Patricia Nelson Limerick,Clyde A. Milner,Charles E. Rankin,1991 Reexamination of the role of the West in US history and of the field of western history itself told by ten historians **The New Western History** Forrest Glen Robinson,1998 Seven scholars examine the work of the new western historians who retell the story of the American West from the point of view of the oppressed and colonized and discuss ways to expand the horizons of this new approach to include fiction literature by women racial categories writers who presaged the movement popular culture and natural history

Under an Open Sky William Cronon,George Miles,Jay Gitlin,1992 Essays examine the significance of the frontier in American history the bases of a western identity and the themes that connect the twentieth century West to its more distant past

A New Significance Clyde A. Milner,1996 These essays represent a reinterpretation of the American West in terms of the issues and subjects of late 20th century America The emphasis is on younger scholars The result is a basic book on the state and direction of Western history

On Turner's Trail Wilbur R. Jacobs,2021-10-08 Should Frederick Jackson Turner be revered as the father of western history or reviled as a misguided advocate of a frontier spirit and rugged individualism that denied cultural diversity and produced widespread environmental destruction Dividing into campus over the issue western historians place him everywhere from one end of the spectrum to the other In this provocative new interpretation of Turner s life work and legacy Wilbur Jacobs challenges the views of traditionalists and views of traditionalists and revisionists alike

From extensive research in the Turner archives a nationwide search for additional Turner correspondence interviews with historians and a lifetime of collecting Turner anecdotes Jacobs chronicles Turner s professional and sometimes personal bequest through 100 years of Western historical writing Jacobs adds his voice to the heated debate by mixing a sophisticated critique of historical writing with stories of professional intrigue the fights to protect Turner s legacy limit access to the Turner archives and control the Western history Association He traces the intellectual development of Turner s frontier theory explores the intense rivalry between two major Turnerian disciples Frederick Merk and Ray A Billington as they vied for control of Turner s legacy and analyzes the efforts of new western historians who seek to erase Turner and Billington from the landscape of what is now called the history of the West Balanced in his assessments Jacobs treats Turner and his disciples with a sympathetic yet critical eye He points out Turner s limitations in dealing with environmental racial ethnic and urban themes as well as the shortcomings of Merk Billington and other Turnerians At the same time however Jacobs

illuminates the major contributions of their work Despite their intense differences Jacobs argues all western historians remain inextricably linked by Turner s legacy

The Legacy of (Scholarly) Conquest ,2007 In this paper I will present an argument for the vigorous and critical scholarship of the American West Proceeding in a roughly chronological fashion chapter one explores the primary source of western American history Frederick Jackson Turner s 1893 frontier thesis from the vantage point of the mid 1980s when revisionist scholars announced a new western history greatly inspired by historian

Patricia Nelson Limerick and her 1987 work *The Legacy of Conquest* The Unbroken Past of the American West In chapter two after describing in fairly broad strokes the nature of the new western history and the debates it provoked I will home in on the particularly vehement and polemical charges of moral relativism made by historian Gerald D Nash framing this episode in the larger context of the longstanding theoretical tension between historicism and absolutism Chapter three will focus on the new western history s ultimately unfulfilled goal to replace the frontier model of western history with a strictly regional framework and will compare and contrast more recent works utilizing each of these interpretive tropes I will then survey work of the past year that focuses on what it means to teach western history in the wake of past controversy concluding that scholarship of and on the American West continues to offer a profound means of understanding the place of Americans in America and America in the world

Utah Historians and the Reconstruction of Western History

Gary Topping,2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship

Something in the Soil

Patricia Nelson Limerick,2001 Patricia Limerick is simply one of the best writers alive Garry Wills

The American West

Gordon Morris Bakken,2000 The American West. Visions and Revisions Margaret Walsh,2005 This is a succinct survey of the numerous contributions to the history of the American west In the past twenty five years historians have established a New Western History which has rewritten the Old Western History created around the famous Turner thesis on the significance of the American Frontier Focusing on issues of land use the environment race ethnicity gender business and the development of communities this study examines the dynamics and progress of recent scholarship This book will prove invaluable for all students of American history

American History Responds

Reid R. Broda,1994 Rethinking American Indian History Donald Lee Fixico,1997 Using innovative methodologies and theories to rethink American Indian history this book challenges previous scholarship

about Native Americans and their communities **Researching Western History** Gerald D. Nash, Richard W. Etulain, 1997 What questions ought historians investigate to understand the twentieth century West? In nine original essays noted senior scholars Robert Cherny, Thomas Cox, Fred Erisman, Richard Etulain, Gene Gressley, Roger Lotchin, Gerald Nash and Glenda Riley offer insightful suggestions to aid the study of modern western history. The opportunities for research advanced here are meant to be suggestive and open ended, presenting new approaches and perspectives on a variety of topics. Some of the essays cover traditional areas such as economic, political and cultural history; others examine the environment, cities, gender and the myths of the West. An introduction and a conclusion offer masterful overviews of interpretations of the twentieth century West. The individual essays also offer first rate historiographic accounts that will interest students and specialists alike. This book will be important for a decade. Martin Ridge

The American West Michael P. Malone, 2007-11-01 Chronicles the history of the American West during the twentieth century, tracing economical, political, social and cultural developments in the region from 1900 to the turn of the twenty-first century, in an updated edition that includes new sections that explore the roles of ethnic groups in the new West, urban developments, western women and events since the mid 1980s. Original **Law in the West** Gordon Morris Bakken, Brenda Farrington, 2001 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating and sources, character analysis, comic elements and verbal conceits, evidence of authorship, performance analysis and feminist interpretations. Alongside theater reviews, production photographs and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work and concept rounds out this valuable resource. **The American West** Robert V. Hine, John Mack Faragher, 2000-01-01 Two historians, Robert V. Hine and John Mack Faragher, present the American West as both frontier and region, real and imagined, old and new, and they show how men and women of all ethnic groups were affected when different cultures met and clashed. Their concise and engaging survey of frontier history traces the story from the first Columbian contacts between Indians and Europeans to the multicultural encounters of the modern Southwest. Profusely illustrated with contemporary drawings, posters and photographs and written in lively and accessible prose, the book not only presents a panoramic view of historical events and characters but also provides fascinating details about such topics as western landscapes, environmental movements, literature, visual arts and film. **A Colorado History** Carl Ubbelohde, Maxine Benson, Duane A. Smith, 2006 For forty years *A Colorado History* has provided a comprehensive and accessible panoramic history of the Centennial State. From the arrival of the Paleo Indians to contemporary times, this enlarged edition leads readers on an extraordinary exploration of a remarkable place.

Writing Western History Richard W. Etulain, 2002 Historians of the American West are indebted to the pioneering scholars of the late nineteenth and early twentieth centuries such as Frederick Jackson Turner, Walter Prescott Webb and Herbert Eugene Bolton. Etulain gathers essays by contemporary historians on ten of these early writers to survey of the

evolution of a scholarly field **Magazine of Western History** ,1890 Red Lodge and the Mythic West Bonnie Christensen,2002 Tracing the story of Red Lodge from the 1880s to the present Christensen tells how a mining town managed to endure the vagaries of the West s unpredictable extractive industries economy She connects Red Lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town **BOOK JACKET**
