## **New York City Transit Streetsmart Maps:**

*Street Smart* Samuel I Schwartz, 2015-08-18 On a Saturday morning in December 1973 a section of New York's West Side Highway collapsed under the weight of a truck full of asphalt. The road was closed seemingly for good and the 80 000 cars that traveled it each day had to find a new way to their destinations. It ought to have produced traffic chaos but it didn't. The cars simply vanished. It was a moment of revelation: the highway had induced the demand for car travel. It was a classic case of build it and they will come but for the first time the opposite had been shown to be true: knock it down and they will go away. Samuel I Schwartz was inspired by the lesson. He started to reimagine cities: most of all his beloved New York freed from their obligation to cars. Eventually he found he was not alone. Since the turn of the twenty-first century a surreptitious revolution has taken place: every year Americans are driving fewer miles. And the generation named for this new century, the Millennials, are driving least of all. Not because they can't afford to; they don't want to. They have better ideas for how to use their streets. An urban transformation is underway and smart streets are at the heart of it. They will boost property prices and personal fitness, roll back years of congestion and smog, and offer a transformative experience of American urban life. From San Francisco to Salt Lake, Charleston to Houston, the American city is becoming a better and better place to be. Schwartz's *Street Smart* is a dazzling and affectionate history of the struggle for control of American cities and an inspiring off-road map to a more vibrant, active and vigorous urban future. *Streetsmart NYC Transit* Stephan Van Dam, 2007 **Map Link**

They're much cheaper than light rail, are hugely successful in promoting development and street life, and fit easily into built environments with little disruption to existing businesses, residents, and traffic cover.

*Time* Britton Hadden, Henry R. Luce, 1939 **The Education of a Design Entrepreneur** Steven Heller, 2002 New from the editor of the pioneering EDUCATION OF series, this benchmark collection of fifty essays and interviews provides students and working designers with a firm understanding of the pitfalls and triumphs awaiting the design entrepreneur. Designers recount their motives for setting out on their own and reflect on the degree to which their creative spirit has been satisfied by entrepreneurial freedom in areas ranging from book, Web site, and home product design to golf course development and entertainment design. Contributors such as Byron Glaser and Sandra Higashi, Eric Zimmerman, Rudy VanderLans, and others

reveal that entrepreneurship is not simply a designer's ticket to liberation it can also be a labyrinth of clerical tasks and manufacturing nightmares This collection provides candid anecdotes and no frills advice for any designer ready to brave the trials and rewards of entrepreneurship     **The Saturday Evening Post** ,1939     *Eyewitness Travel Guide - Washington, D.
