New Zealand Early Childhood Literacy Han:

Multilingual Approaches for Teaching and Learning Claudine Kirsch, Joana Duarte, 2020-03-04 Multilingual Approaches for Teaching and Learning outlines the opportunities and challenges of multilingual approaches in mainstream education in Europe. The book which draws on research findings from several officially monolingual bilingual and multilingual countries in Europe discusses approaches to multilingual education which capitalise on students' multilingual resources from early childhood to higher education. This book synthesises research on multilingual education, relates theory to practice and discusses different pedagogical approaches from diverse perspectives. The first section of the book outlines multilingual approaches in early childhood education and primary school, the second looks at multilingual approaches in secondary school and higher education and the third examines the influence of parents, policy makers and professional development on the implementation and sustainability of multilingual approaches. The book demonstrates that educators can leverage students' multilingualism to promote learning and help students achieve their full potential. This book will be of great interest to academics, researchers and postgraduate students in the fields of language education, psychology, sociolinguistics and applied linguistics.

Young Children's Language in Context Sheila Degotardi, Shelley Stagg Peterson, Jiangbo Hu, 2023-06-06 This book explores how young children's language development is intricately connected to the context in which it takes place. The term context not only specifies a geographical location but also encompasses notions of culture, community and activity. Context also refers to discourse features and functions and to the relationships between the speakers. Every context thus embodies specific practices, intentions and values which privilege particular words, phrases, meanings and communication conventions. Each chapter highlights the dynamic, fluid and multifaceted interplays between language and context to illustrate how context in every sense is inextricably intertwined with young children's language and literacy learning opportunities. The chapters interrogate the topic of *Young Children's Language in Context* by collectively exploring the multiple ways that context broadly and variously conceptualised intersects with language and literacy experiences. Authors examine how contexts shape language and literacy learning opportunities, how children's language shapes their social interactive and relationship contexts and how their language and literacy experiences are themselves contexts which create socially and culturally endorsed ways to represent ideas, intentions and expectations. This book will be of interest to researchers and advanced students of early childhood education and language development. It was originally published as a special issue in the *International Journal of Early Years Education*.

Supporting the Wellbeing of Young Children with EAL Liam A. Murphy, 2022-07-20 Language and communication skills are a key foundation of child development. This accessible and engaging resource enables early years educators to support the wellbeing and development of children whose first language is not English. Positioning language as a community entity, the book explores critical approaches to language development and importantly their practical application to planning, provision, professional development and wellbeing. It provides context

and evidence based strategies to develop strong child centred practice in real world settings and offers an overview of how educators can work with families to ensure a consistent approach to early language development at home The book Supports the wellbeing of children for whom everyday communication in an English setting may be confusing and difficult Provides strategies and techniques that recognise the unique wellbeing needs of children with EAL and can be implemented immediately throughout the EYFS curriculum and beyond Focuses on engaging the whole community with a holistic approach to early language development and wellbeing Drawing from first hand experience and with practical examples and ideas woven throughout this is an essential resource for all early years educators working with young children with EAL
