## **Nicaragua Revolucion En La Familiar** **nicaragua Revolution In The Family:**

Nicaragua, Revolution in the Family Shirley Christian, 1986 Journalist Christian's masterful evenhanded account of Nicaragua's Sandinistas derives from years of interviews and on the scene observations. Beginning with the last days of the Somoza regime she details the morass of political intrigue through November 1984. The problem is she argues that the success of sandinismo turned the people from instigators of change into objects of change both in the eyes of the church and of the state. As the center of the struggle flew out of control onto the battlefields of Havana Washington Rome and Panama democratic principles were subordinated to other peoples needs a no win situation for the peasants. To draw conclusions about Nicaragua Christian emphasizes is a lot more difficult than superficial U S policy would imply

### **The Sandinista**

**Revolution** Mateo Jarquín, 2024-04-10 The Sandinista Revolution and its victory against the Somoza dictatorship in Nicaragua gripped the United States and the world in the 1980s. But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past. Mateo Jarquin recenters the revolution as a major episode in the history of Latin America the international left and the Cold War. Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context. Because struggles over the Revolution unfolded transnationally the Nicaraguan drama had lasting consequences for Latin American politics at a critical juncture. It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world dominated by two superpowers. Jarquin offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order

*Radical Women in Latin America* Victoria González-Rivera, Karen Kampwirth, 2010-11-01 The rationale stated for studying radical women of Latin America is first to throw light on the development of dictatorship and authoritarianism second to transcend the stereotype of inherently violent

men and inherently peaceful women and finally to demonstrate that there is no automatic sisterhood among women even of the same class and ethnicity. Brief chronologies of three countries each in Central and South America open the two sections. The contributors are historians and political scientists primarily from the US. The volume is about women who have participated in armed conflict as members of an armed group trained in military action with different tasks within the conflict. The chapters endeavor to make women's own voices heard to discover the untold stories of women as perpetrators and facilitators of military violence and the authors do this through the use of personal interviews and the study of primary documents. The work widens the geographical perspective of feminist security studies to discover in what ways the historical political and social context has motivated the women to participate in military action and presents new case study data from Germany Ukraine Turkey Israel Palestine Cameroon India the Philippines Vietnam and Latin America. Temporally the chapters cover almost two centuries from the late 19th century to the present day touching upon a wide variety of examples of armed conflict from wars of independence to the Second World War. Bringing together approaches from politics history anthropology and area studies the chapters are informed by the fundamental insights of feminist research and address such pivotal questions as hegemonic masculinity in the armed forces and the relation between women's armed violence and female agency.
