Nicholas Biddle In Greece The Journals And Letters Of 1806:

Nicholas Biddle in Greece R. A. McNeal, 2010-11-01 *Who Saved the Parthenon?* William St Clair, 2022-05-26 In this magisterial book William St Clair unfolds the history of the Parthenon throughout the modern era to the present day with special emphasis on the period before during and after the Greek War of Independence of 1821-32 Focusing particularly on the question of who saved the Parthenon from destruction during this conflict with the help of documents that shed a new light on this enduring question he explores the contributions made by the Philhellenes Ancient Athenians Ottomans and the Great Powers Marshalling a vast amount of primary evidence much of it previously unexamined and published here for the first time St Clair rigorously explores the multiple ways in which the Parthenon has served both as a cultural icon onto which meanings are projected and as a symbol of particular national religious and racial identities as well as how it illuminates larger questions about the uses of built heritage This book has a companion volume with the classical Parthenon as its main focus which offers new ways of recovering the monument and its meanings in ancient times St Clair builds on the success of his classic text *The Reading Nation in the Romantic Period* to present this rich and authoritative account of the Parthenon's presentation and reception throughout history With weighty implications for the present life of the Parthenon it is itself a monumental contribution to accounts of the Greek Revolution to classical studies and to intellectual history Greece Carol G. Thomas, 2014-08-19 *Greece A Short History of a Long Story* presents a comprehensive overview of the history of Greece by exploring the continuity of Greek culture from its Neolithic origins to the modern era Tells the story of Greece through individual personalities that inhabited various periods in the lengthy sweep of Greek history Uses an approach based on recent research that includes DNA analysis and analyses of archaeological materials Explores ways in which the nature of Greek culture was continually reshaped over time Features illustrations that portray the people of different eras in Greek history along with maps that demonstrate the physical sphere of Greece and major events in each of the periods *Mobile Narratives* Eleftheria Arapoglou, Mónika Fodor, Jopi Nyman, 2013-08-15 Emphasizing the role of travel and migration in the performance and transformation of identity this volume addresses representations of travel mobility and migration in 19th-21st century travel writing literature and media texts In so doing the book analyses the role of the various cultural ethnic gender and national encounters pertinent to narratives of travel and migration in transforming and problematizing the identities of both the travelers and travelees enacting in the borderzones between cultures While the individual essays by scholars from a wide range of countries deal with a variety of case studies from various historical spatial and cultural locations they share a strong central interest in the ways in which the narratives of travel contribute to the imagining of ethnic encounters and how they have acted as sites of transformation and transculturation from the early nineteenth century to the present day In addition to discussing textual representations of travel and migration the volume also addresses the ways in which cultural texts themselves travel and are reconstructed in various cultural settings The analyses are particularly

attentive to the issues of globalization and migration which provide a general frame for interpretation What distinguishes the volume from existing books is its concern with travel and migration as ways of forging transcultural identities that are able to subvert existing categorizations and binary models of identity formation In so doing it pays particular attention to the performance of identity in various spaces of cultural encounter ranging from North America to the East of Europe putting particular emphasis on the representation of intercultural and ethnic encounters

Building the Cold War Annabel Jane Wharton,2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States Building the Cold War examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel s unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul s cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War s first international businesses and demonstrates that the Hilton s role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space

The European Travel Diaries of Albert Brisbane, 1830-1832 Albert Brisbane, 2005 In the past half century scholars of many different disciplines have produced an expansive body of literature on utopianism in America Albert Brisbane as the original propagandist of Fourierism in nineteenth century America owns a significant place in this literature Brisbane's 1830-1832 travel diaries offer a useful contribution at several levels First the diaries furnish us with a picture of the society in which Saint Simonianism and Fourierism took shape Second the diaries further our understanding of the impact and dissemination of these ideas where they were discussed and how they were discussed Finally and perhaps most intriguingly the diaries offer us an opportunity to listen in on the thinking of an impressionable young man as he came to be attracted to utopian theories while moving in elite European intellectual society Brisbane made strong personal friendships within this intellectual community and continued to correspond with several significant individuals while in Europe and following his return to America Brisbane was an earnest and precocious young man and very human adolescent sensibility and openness to new experiences and ideas In the end we have a much better picture of who this person was who brought the complex social model of the Phalanx to America
