Love Trances:

Love Trances Craig Rovinsky, 2003-04 HYPNOTIZE MEN TO FALL IN LOVE WITH YOU without them being aware anything is happening Have you found it difficult to find love and wonder if you are doing something wrong Thousands of palm readings have shown me you are not alone Attractive sensual women everywhere seem to have trouble finding love and wonder what they can do about it Usually the answer was not much Until now Over the years I have shared many effective hypnotic techniques with my palm reading clients These simple methods allow you to hypnotize a man with apparently normal conversation Once he is in trance his experiences will be greatly magnified including positive emotions with you In the last twenty years thousands of women have used these ideas to successfully create love in their lives LOVE TRANCES teaches you how to obtain trance and what to do with it when you have it to create love in your life If you want to empower yourself like you've always dreamed possible if you are willing to learn a few basic ideas if you are willing to take a chance to improve your happiness then open LOVE TRANCES and begin changing your love life now The Way of Trance Dennis R. Wier, 2007 **Trance: from Magic to Technology** Dennis R. Wier, 2006-05-01 This book describes a new model for trance as well as practical techniques to analyse and design trances Writing from his personal experience Wier suggests that some of these ideas might represent new practical precision tools for psychologists as well as for those who work with the occult Practical suggestions for meditators yogis witches and others are included to deepen trance and to increase the trance force as well as techniques to terminate a trance Pathological trance and trance abuse are also described with suggestions on how they may be recognized and prevented **The Psychology of Religious Mysticism** James H. Leuba, 2013-11-05 First Published in 1999 This is Volume III of six of a series on the Psychology of Religion Written around 1925 this book is a psychological study of human nature It includes a philosophical chapter and also one in which are set forth the practical consequences to religion of some of its conclusions But whatever may be the importance of these two chapters the book is to be judged primarily as a psychological study of aspects of human nature conspicuous in mystical religion **The Psychology of Religious Mysticism** James Henry Leuba, 1929 This classic study examines a problem that stands at the heart of society How does a child distinguish between right and wrong Professor Piaget and his colleagues begin their investigation by analyzing the rules of the game in this case a seemingly simple game of marbles as handed down from one group of children to another They observe the child's total acceptance of the consensus rules and describe the moral pressure of the group on the individual Piaget proceeds to an analysis of lying cheating adult authority punishment and responsibility noting and evaluating the changing attitudes of growing children toward these moral realities The book concludes with a comparison of the findings of this significant study with those theories in social psychology and sociology that bear directly on the moral development of the child **Sex--the Unknown Quantity** Alexander James McIvor-Tyndall, 1916 The Journal of Abnormal Psychology and Social Psychology, 1925 *Journal of Abnormal*
