

## **The Love I Let Go**

**When I first looked into your eyes you swept me off my feet.  
Whenever I was by your side it made me feel complete.  
The first time that I saw you smile the world felt so surreal,  
And when you held my hand in yours my heart learned how to feel.**

**My strength was of 1000 men. My knees, they felt so weak.  
I had a million words to say. My tongue refused to speak.  
The hours felt like minutes. The minutes felt like years.  
You showed me how to face the world and chased away my fears.**

**But now those eyes that used to shine no longer look my way.  
Instead of standing by my side you turn and run away.  
Your smile has become a frown, your hand is pulled away.  
Instead of lifting up my spirits, you leave them disarrayed.**

**I cry myself to sleep at night; there's nothing I can do.  
I just can't find the words to say how much I care for you.  
I want so much to keep you here, but in my heart I know,  
It's true that if you love someone you have to let them go.**

Wong,2012 This book offers a survey of how female and male characters in English Renaissance theatre participated and interacted in musical activities both inside and outside the contemporary societal decorum Wong s analysis broadens our understanding of the general theatrical representation of music or musical

dramaturgy and complicates the current discussion of musical portrayal and construction of gender during this period Wong discusses dramaturgical meanings of music and its association with gender love and erotomania in Renaissance plays The negotiation between the dichotomous qualities of the heavenly and the demonic finds extensive application in recent studies of music in early modern English plays However while ideological dualities identified in music in traditional Renaissance thinking may seem unequivocal various musical representations of characters and situations in early modern drama would prove otherwise Wong building upon the conventional model of binarism explores how playwrights created their musical characters and scenarios according to the received cultural use and perception of music and at the same time experimented with the multivalent meanings and significance embodied in theatrical music
