**The Angel Roofs of East Anglia** Michael Rimmer,2015-08-27 Shortlisted for the East Anglian Book Awards 2016 It has been estimated that over 90% of England s figurative medieval art was obliterated in the image destruction of the Reformation Medieval angel roofs timber structures with spectacular and ornate carvings of angels with a peculiar preponderance in East Anglia were simply too difficult for Reformation iconoclasts to reach Angel roof carvings comprise the largest surviving body of major English medieval wood sculpture Though they are both masterpieces of sculpture and engineering angel roofs have been almost completely neglected by academics and art historians because they are inaccessible fixed and challenging to photograph The Angel Roofs of East Anglia is the first detailed historical and photographic study of the region s many medieval angel roofs It shows the artistry and architecture of these inaccessible and little studied medieval artworks in more detail and clarity than ever before and explains how they were made by whom and why Michael Rimmer redresses the scholarly neglect and brings the beauty craftsmanship and history of these astonishing medieval creations to the reader The book also offers a fascinating new answer to the question of why angel roofs are so overwhelmingly an East Anglian phenomenon but relatively rare elsewhere in the country

Raphael Brandon,2015-06-26 Excerpt from The Open Timber Roofs of the Middle Ages Illustrated by Perspective and Working Drawings of Some of the Best Varieties of Church Roofs With Descriptive Letter Press The conviction that of the various branches of Ecclesiastical Architecture the Open Timber Roofs of our ancient Churches had received the smallest portion of attention induced us to undertake its investigation most of the other parts of a sacred edifice present an inviting field to the artist and amateur and we have to acknowledge many beautiful and valuable treatises from their hands the subject of the present work however affords little such attraction and indeed appears particularly appertaining to the province of the Architect from whom alone could be expected that research into the constructive features which necessarily claim the devotion of much time and application The urgency of a close inquiry will be at once manifest when it is considered how valuable these excellent models must be to us not so much for servile imitation as to show the spirit with which the Medieval Architects always sought to give to necessary construction the most beautiful forms how far they succeeded is seen in their universally admired works let us imitate their example in our new churches where vaulting is generally impossible and rarely even desirable About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books
