**Figuring Fibers** Carolyn Yackel,sarah-marie belcastro,2018-10-31 Pick up this book and dive into one of eight chapters relating mathematics to fiber arts Amazing exposition transports any interested person on a mathematical exploration that is rigorous enough to capture the hearts of mathematicians The zenith of creativity is achieved as readers are led to knit crochet quilt or sew a project specifically designed to illuminate the mathematics through its physical realization The beautiful finished pieces provide a visual understanding of the mathematics that can be shared with those who view them If you love mathematics or fiber arts this book is for you *Mathematics Today* ,2004 Centering Humanism in STEM Education Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM The Virginia Mathematics Teacher ,1996 *Spiritual Aspirations Connected with Mathematics* Klaus G.
