Pragmatism and Feminism Charlene Haddock Seigfried, 1996-06-15 Though many pioneering feminists were deeply influenced by American pragmatism their contemporary followers have generally ignored that tradition because of its marginalization by a philosophical mainstream intent on neutral analyses devoid of subjectivity In this revealing work Charlene Haddock Seigfried effectively reunites two major social and philosophical movements arguing that pragmatism because of its focus on the emancipatory potential of everyday experiences offers feminism its most viable and powerful philosophical foundation With careful attention to their interwoven histories and contemporary concerns Pragmatism and Feminism effectively invigorates both traditions opening them to new interpretations and appropriations and asserting their timely philosophical relevance This foundational work in feminist theory simultaneously invites and guides future scholarship in an area of rapidly emerging significance

Here and Now Story Book Two to Seven-Year Olds Lucy Sprague Mitchell, 2013-06-15 These stories are experiments experiments both in content and in form They were written because of a deep dissatisfaction felt by a group of people working experimentally in a laboratory school with the available literature for children I am publishing them not because I feel they have come through to any particularly noteworthy achievement but because they indicate a method of work which I believe to be sound where children are concerned They must always be regarded as experiments but experiments which have been strictly limited to lines suggested to me by the children themselves Both the stuff of the stories and the mould in which they are cast are based on suggestions gained directly from children I have tried to put aside my notions of what was childlike I have tried to ignore what I as an adult like I have tried to study children's interests not historically but through their present observations and inquiries and their sense of form through their spontaneous expressions in language and to model my own work strictly on these findings I have forced myself throughout to be deliberate conscious for fear I should slip back to adult habits of thought and expression I can give here only samples of the many stories and questions I have gathered from the children which form the basis of my own stories Suffice it that my own stories attempt to follow honestly the leads which here and now the children themselves indicate in content and in form no matter how difficult or strange the going for adult feet
