## **Ludwig Wittgenstein Architect:**

*Ludwig Wittgenstein, Architect* Paul Wijdeveld, 1994 Between the years 1926 and 1928 the philosopher Ludwig Wittgenstein and the architect Paul Engelmann designed and built a villa for Wittgenstein's elder sister the Viennese society figure Margaret Stonborough. Although Engelmann was an experienced architect and a former pupil of Adolf Loos the collaboration between the two was dominated by Wittgenstein who is generally credited with the villa's design. This book describes the events that led to Wittgenstein's temporary status as an architect and reviews his ideas about aesthetics in general and architecture in particular. It also includes an extensive analysis of his quest for functionalism, perfectionism and elegance as a consequence of truthfulness in thinking and acting. Considerable attention is given to Wittgenstein's friendship with Loos and the role of Loos's pupil Jacques Groag. The text is accompanied by some 300 drawings and sketches by Engelmann and Wittgenstein, virtually all preserved perspectives and plans and drawings and watercolors of the villa's interior and original furnishing.

**Wittgenstein, Architecht** Paul Wijdeveld, 1994 The power of Ludwig Wittgenstein's genius which had such a significant effect upon the course of Western philosophy meant that for him nothing was trivial or of secondary importance. Between 1926 and 1928 in partnership with the architect Paul Engelmann he designed and built a house in Vienna the Kundmanngasse for his sister Margaret Stonborough. Although Engelmann was an experienced architect and a former pupil of Adolf Loos Wittgenstein dominated the project and is credited with the design which is described as an elegant and austere example of early Modernism.

The Wittgenstein House Bernhard Leitner, 2000-12 Related to author's Architecture of Ludwig Wittgenstein 1973

**Architektur Von Ludwig Wittgenstein** Bernhard Leitner, 1995 First published in 1973 this text features the Wittgenstein House in Vienna. Declared a national monument in 1972 by the Vienna Landmark Commission it was faithfully restored in 1973. Ludwig Wittgenstein designed the house in 1927-1928 for his sister. Although he had no professional architectural qualification the interior of this building is quite unique every detail has been rethought and appears to be uninfluenced by any building convention or style whilst the cubic forms of the building's exterior reveal the influence of Adolf Loos.

**Wittgenstein's House** Nana Last, 2008 The book advances the radical proposition that the field in which architecture and philosophy operate includes linguistic and spatial practices. It develops innovative forms of interdisciplinary analyses to demonstrate that the philosophical positions put forth by Wittgenstein's two main works are literally unthinkable outside of their respective conceptions of space the view from above in the early work and the view from within constructed by the later work.

*Architecture Language Critique*, 2021-10-01 Paul Engelmann was Adolf Loos's favorite pupil private secretary to Karl Kraus and Ludwig Wittgenstein's most important interlocutor in the years between 1916 and 1928 as well as his partner in building the Stonborough House. Thus it was that the trenchant critique of modernity associated with Wittgenstein's Vienna

originated around Paul Engelmann The present volume of essays from an international symposium in Aarhus Denmark in 1999 offers an interdisciplinary perspective on issues bearing upon architecture language and cultural criticism as they relate to the life s work of Paul Engelmann     **Mysticism and Architecture** Roger Paden,2007-01-01 A multi disciplinary study of the house that the philosopher Ludwig Wittgenstein built for his sister in Vienna between 1926 and 1928 this book weaves together ideas taken from a number of disciplines\_sociology political science aesthetics architecture urban planning and philosophy\_to develop a complex multifaceted interpretation of the purpose and design of the house which in turn is used to ground a new interpretation of Wittgenstein s philosophical works emphasizing their mystical nature and practical purpose

*Architektur Von Ludwig Wittgenstein* Bernhard Leitner,1976-01-01     *Self-understanding in the Tractatus and Wittgenstein's Architecture* Raimundo Henriques,2024-07-16 Between 1926 and 1928 the philosopher Ludwig Wittgenstein designed a house for his sister in Vienna the Kundmanngasse This book aims to clarify the relation between that house and Wittgenstein s early philosophy The starting point of its main argument is a remark from Diktat f r Schlick c 1932 33 in which Wittgenstein proposes an analogy between ornaments and nonsensical sentences The attempt to extract from it an account of the relation between the Kundmanngasse and the Tractatus Logico Philosophicus 1921 leads to the writings of Adolf Loos whose influence Wittgenstein recognized The discussion of Loos s writings suggests that the analogy should be understood not as one between actual ornaments and nonsensical sentences but as one between Loos s and Wittgenstein s uses of these notions So understood it favors the so called resolute reading of the Tractatus and reveals that both Wittgenstein s use of nonsense and Loos s use of ornaments are means to the end of promoting self understanding The book concludes that both the Kundmanngasse and the Tractatus are results of Wittgenstein s efforts at this kind of self understanding These can be construed as ways of acknowledging our humanity which in turn can be seen as a unifying element of Wittgenstein s philosophy     *Ludwig Wittgenstein, architect* Paulus P. Wijdeveld,1993     **Die Architektur von Ludwig Wittgenstein**

Bernhard Leitner (K nstler),1973     **On Bernhard Leitner's The Architecture of Ludwig Wittgenstein: a Documentation** Alan Plattus,1974     **Wittgenstein's House** Nana Last,2022 Wittgenstein s House reads Wittgenstein s his two main philosophical texts Tractatus Logico Philosophicus and Philosophical Investigations in relation to an experience that intervened between them his design and construction of the Stonborough Wittgenstein house in Vienna Arguing that the practice of architecture occupies not just a historical position between Wittgenstein s early and late philosophy but a conceptual position as well the book demonstrates that Wittgenstein s practice of architecture constitutes a fundamental component in the development of his philosophy of language from its early to late phases The book advances the radical proposition that the field in which architecture and philosophy operate includes linguistic and spatial practices It develops innovative forms of interdisciplinary analyses to demonstrate that the philosophical positions put forth by Wittgenstein s two main works are literally unthinkable outside of their respective conceptions of space the view from above in the early work

and the view from within constructed by the late work To examine the manner in which Wittgenstein's practice of architecture insinuated itself into his philosophy the author interweaves in depth analyses of the spatial constructs underpinning the early and late philosophies with conceptual formal and operative discussions of the design of the Stonborough Wittgenstein house Together these discussions reveal how Wittgenstein's practice of architecture engaged philosophical concepts through which it influenced Wittgenstein's philosophy of language At the heart of this approach is the finding that the philosophical concepts at the core of Wittgenstein's philosophy are indeed spatial ones including his concerns with the limits of language the boundary between showing and saying the intricate textual numbering systems he devises the relationship between the interiority of the subject and the publicness of language and the formative principle of family resemblance

**Die Rettung des Wittgenstein Hauses in Wien vor dem Abbruch** Bernhard Leitner, 2013

The demolition of the Wittgenstein House had been approved by the landmark preservation office the City of Vienna in June 1971 It was only stopped at the last minute Bernhard Leitner collected unique photographs as well as facsimiles of documents that illustrate the incredible odyssey that ended in the rescue of this architectural jewel
