Masterless Men:

Masterless Men Keri Leigh Merritt, 2017-05-08 Analyzing land policy labor and legal history Keri Leigh Merritt reveals what happens to excess workers when a capitalist system is predicated on slave labor With the rising global demand for cotton and thus slaves in the 1840s and 1850s the need for white laborers in the American South was drastically reduced creating a large underclass who were unemployed or underemployed These poor whites could not compete for jobs or living wages with profitable slave labor Though impoverished whites were never subjected to the daily violence and degrading humiliations of racial slavery they did suffer tangible socio economic consequences as a result of living in a slave society Merritt examines how these masterless men and women threatened the existing Southern hierarchy and ultimately helped push Southern slaveholders toward secession and civil war

Reparations and the Theological Disciplines Michael Barram, Drew G. I. Hart, Gimbiya Kettering, Michael J. Rhodes, 2023-10-10 Historically many churches and theologians defended and supported race based slavery and subsequent forms of racial hierarchy and violence The essays in Reparations and the Theological Disciplines argue that it is urgent that the theological disciplines engage the issue of reparations by revisiting Scripture and our theological traditions The time is now for remembrance reckoning and repair

Neighbourly Relationships in Early Modern Drama Iman Sheeha,2025-09-30 The book offers the first sustained examination of neighbourly relationships in early modern English drama situating the close analyses of the selected plays within contemporary prescriptive literature such as sermons and conduct books letters diaries pamphlets ballads wills proverbs as well as the lived realities of early modern neighbourhoods as glimpsed in the historical and legal archives The originality of the book lies in its topic in the plays chosen for analysis including Gammer Gurton s Needle written in the 1550s and believed to be the first printed vernacular English comedy and in the revisionist close readings on offer The plays span the period between 1550s and 1620s belong to different genres and were aimed at different audiences and written for different kinds of playhouses allowing for conclusions to be drawn about the way genre shapes the treatment of neighbourly relationships as well as revealing continuities and changes in this treatment over the period under study
